About US

POEN is an innovative Electric Vehicle (EV) industry start-up, committed to sustainability and aiming to revolutionize the EV industry. We offer high-quality, eco-friendly remanufactured batteries and related technical services. Each battery is remanufactured with meticulous care and attention to detail, ensuring compliance with the high standards of global car Original Equipment Manufacturers (OEMs). Additionally, we have established foreign corporations in the western United States and Europe, further strengthening our presence and commitment in key markets for EV innovation.
