

Are You Putting Out Fires All Day?

Your spreadsheet says one thing.

The sales team says another.

And the truck in the dock is being shorted – again.

Spreadsheets can't keep up.

Manufacturing ERP's aren't built for this.

And customers grow frustrated.

You're barely hanging on.

We've been there; just getting through the day, hoping it won't crumble.

There has to be a better way.

iQ Grower ERP

We're not just building software.

We're building a community of innovators,
and *Turning Chaos into Clarity, Together.*

Built by Growers. For Growers.

What Sets iQ Grower Apart?

Built on Salesforce

Modern, scalable, secure platform trusted by millions globally. Ready for the AI age.

Single Source of Truth

CRM + ERP + Finance + Marketing data in one system across your entire organization.

Real-Time Availability by Grade

Know what's ready to sell by grade — and when — from the moment a batch is planned.

Grower-Smart Inventory

Grades, Phases, Crop History, Fallout Tracking and unlimited photo history per batch.

Deep Flexibility

Growing isn't manufacturing. Scale operations while preserving horticultural flexibility.

Lean Flow Built-In

Every workflow designed to reduce waste, improve flow, and drive clarity across teams.

A System Built For Your World

Shipping & Logistics

Optimization, rack building, live tracking, automated documents + much more

Inventory Management

Manage photos, pick priorities, fallout, and availability with confidence.

Production & Growing

Grower Recipe Masters and full crop production history as crops flow from planned to produced.

Executive Leadership

True visibility into crops, teams and goals. Make decisions based on real data — not gut feel.

Finance & Accounting

Multi Ledger. AR and AP automation capabilities allow you to scale.

Sales, Planning & Marketing

Availability that updates in real time. Forecasts you can trust. Campaigns powered by customer behavior.
