

## Get Certified in Virtual Reality

Our VR Cleaning Course transforms traditional training into an interactive, immersive experience. Cleaners learn step-by-step procedures, safety rules, and cleaning standards all inside a realistic 3D environment.

FacilityApps  
software for cleaners

## Experience the Future of Cleaner Training

### Why Choose VR Training?

- Language independent: Overcomes language barriers with visual learning and more than 15 supported languages.
- Safe & Scalable: Train anytime, anywhere, without disrupting daily operations.
- Realistic & Engaging: Simulates real-life cleaning scenarios.
- Data-Driven Certification: Track performance, progress, and results digitally.

Discover the next step in cleaner education.

### With VR training, you can:

- Train your cleaners faster, smarter, and safer
- Improve quality across multiple sites and languages
- Reduce onboarding time and costs while increasing engagement

### Users

- Supervisors
- Employees
- Happy clients

### API

- ERP
- FMIS
- CRM
- HRM

### Modules

- Calculation & Quotes
- Work orders & Task schedules
- Quality control
- Documents
- Form builder
- Sick & Holidays
- Rosters & Planboard
- Time & Attendance
- Complaints & Logbook
- Asset management
- Chat & News
- Automation

### Hardware

- Virtual Reality Training
- Peoplecounters
- Smart Dispensers
- QR & NFC stickers
- Timeboxes

### IoT

- IoT Sensors
- Track & Trace
- Smart Buildings
- Machine Data

### Reports

- Dashboards
- Business intelligence
- Excel exports
