- PACKAGING HOMOGENEITY
- PROFIT MAXIMISATION

### *ZETAPACK'S NEW SOLUTION TO FACILITATE THE PROCESS OF MINIMUM GUARANTEED WEIGHT PACKAGING.*

The AGV50 weighing machine is composed of a compact and functional machine body.

The weight control at the beginning of the line dialogues with 18 scales searching for the best combination of weights to complete the final package. The product is discharged on a wave conveyor belt, to maintain the maximum delicacy.
