

WEJOIN Motorized Tripod Turnstile

Function & Features

1. DC servo motor and control, support WEIGNAD 26/34 communication and RS232 socket.
2. Arm auto drop when power off, auto rise up when power on.
3. Support bi-direction or single-direction passing, and self-locking within 5 seconds.
4. Counter, alarm light, remote control, and LAN socket is available.
5. Support Traffic light/ passing direction indicator and photoelectric inspection available.
6. It can be integrated with RFID device, push button, fingerprint, biometric device and so on.

Technical Specifications

1. Power Input: AC110V~220V+10% 50HZ
2. Working Voltage: DC12V
3. Rated Power: 50W
4. Working Temperature: -25°C~+55°C
5. Relative Humidity: < 95% RH without condensation
6. Access speed: 25~32 persons/min

WEJOIN Automatic Tripod Turnstile

Function & Features

1. Exquisite rotating plate and a self-lock mechanism.
2. Arm auto drop when power off.
3. Support bi-direction or single-direction passing, and self-locking within 5 seconds.
4. Counter, fire alarm emergency signal output is available.
5. Support left access(L), right access(R), emergency(EM), GND.
6. It can be integrated with RFID device, push button, fingerprint, biometric device and so on.

Technical Specifications

1. Power Supply: Power supply: AC110V~220V+10% 50HZ
2. Motor Voltage: DC12V
3. Power: 36W
4. Working Temperature: -25°C~+55°C
5. Relative Humidity: < 95% with no condensation
6. Passenger Flow: 30~45 persons/min

WEJOIN Flap Barrier/ Speed Gate

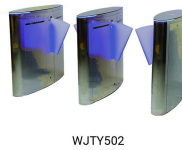

WJTYH02

WJTY601

Function & Features

1. One-time molding door, color is changeable by choosing different LED strips.
2. The opening and closing speed is adjustable.
3. Supports RS232 serial communication and Modbus protocol.
4. Voice and speaker function is optional.
5. When power off, DC12V power supply is available.
6. It can be integrated with RFID device, push button, fingerprint, biometric device and so on.

WJTY502

Technical Specifications

1. Working Temperature: -30°C~+70°C
2. Power supply: AC110/220V±10%
3. Controller Input Voltage: DC24V±10%
4. Rated power: 50W
5. Humidity: <90%RH
6. Cabinet material: 304 Stainless Steel
7. Channel width: 600mm
8. Running Speed: 0.3~1S

WEJOIN Swing Barrier

WJST301

WJST302

WJST303

Function & Features

1. Long service life and easy maintenance ensures stable passage and high traffic frequency area.
2. The opening and closing speed is adjustable, and the fastest opening speed can be 0.3 seconds.
3. Supports RS232 serial communication and Modbus protocol.
4. Voice and speaker function is optional.
5. When power off, DC12V power supply is available.
6. It can be integrated with RFID device, push button, fingerprint, biometric device and so on.

WJST304

WJTBH02

Technical Specifications

1. Working Temperature: -30°C~+70°C
2. Power supply: AC110/220V±10%
3. Controller Input Voltage: DC24V±10%
4. Rated power: 50W
5. Humidity: <90%RH
6. Cabinet material: Aluminum alloy/304 stainless steel
7. Channel width: 600mm~1100mm (optional)
8. Running Speed: 0.3~1S

Founded in March 2004, Shenzhen Wejoin Mechanical & Electrical Co. is a national high-tech enterprise specialized in R&D, production, and sales of intelligent access control products. It has nearly 200 patented technologies. Its main products including commercial barrier gate, high-grade & mid-grade & eco-grade DC variable-frequency barrier gate, tripod turnstile, flap barrier, swing barrier, speed gate, etc., are suitable for the entry and exit management of vehicles and personnel such as high-speed toll gate, commercial plaza, residential areas, stations, customs checkpoints, etc. All the products have CE certificate and have been exported to more 100 countries and regions, such as Germany, British, Spain, Czech Republic, France, Mexico, Brazil, Malaysia, Israel, India, and so on.
