INTRODUCTION

Fendsea

Founded in May 2023 in Lorient (FRANCE), Fendsea is reinventing the use and aesthetics of boat fenders by offering boaters an integrated storage solution to avoid wasted space, encourage waste storage, and help reduce ocean pollution.

PERFORMANCE

The patented inflatable Drop Stitch technology provides **2.5 times greater protection** and allows you to **cut in half the number of fenders needed** on board.

DURABILITY

The inflatable feature combined with Drop Stitch technology provides **a lifespan three times longer**.

MULTIPURPOSE

The integrated storage in the fenders allows boaters to **optimize onboard space** and take advantage of a **wide range of accessories**, thereby expanding the traditional use of fenders.

DESIGN & CUSTOMIZATION

FendSea's reimagined design and **customization options** make each fender series truly **unique** — a sleek, stylish addition perfectly aligned with the **high-end positioning** of today's finest boats..

FENDSEA'S RANGE

Your Fendsea, your style...

The pioneer in custom-made fenders, FendSea has developed three ranges of products tailored to meet the needs of all boating industry professionals:

-  Fendsea Race range - designed for racing sailboats
-  Fendsea Cruise range - made for boats ranging from 7 to 20 meters
-  Fendsea Prestige range - crafted for yachts from 20 to 50 meters, featuring a premium design suited to this high-end segment
