YUYAO YADONG PLASTIC CO., LTD.
NINGBO KEMAN ENVIRONMENTAL TECHNOLOGY CO., LTD.

The top three domestic whole-house water purification manufacturers

Core Control Valve Independent R&D Enterprise

National high-tech enterprise

18-year brand OEM/ODM exporter

Patent Inventor of Purification and Softening Integrated Machine

Yuyao Yadong Plastic Co., Ltd. was established in **1999**

Focusing on the research and development, production, and sales of whole house water purification solutions. We have two major subsidiaries: Keman and Finewater. Committed to providing one-stop whole house water purification products and services to global customers.

The company is a core ODM/OEM supplier and accessory partner for domestic and foreign brands. Yuyao Yadong Plastic Co., Ltd. has built a full range of product matrices, including multi way control valves, water softeners, central water purifiers, pre filters, reverse osmosis water purifiers, commercial water purifiers, faucet water filters, pressure tanks, easy housings, filter housings, membrane housings, etc. Our products are exported to more than **80** countries and regions around the world.

The company has the full industry chain technical capabilities from product research and development, mold manufacturing, large-scale production to market sales, especially in the field of waterway switching with profound technical accumulation. Yuyao Yadong Plastic Co., Ltd. innovatively uses multi way valve technology to continuously innovate in the field of integrated whole house water purification, committed to developing whole house water purification products that are more suitable for Chinese household application scenarios.

The company has obtained **2** international patents, **30** invention patents, and over **100** utility model patents, and has been awarded the titles of National High tech Enterprise and Provincial Specialized and Innovative Enterprise.

Yuyao Yadong Plastic Co., Ltd. covers an area of **40000** square meters and has formed a large-scale manufacturing capacity.

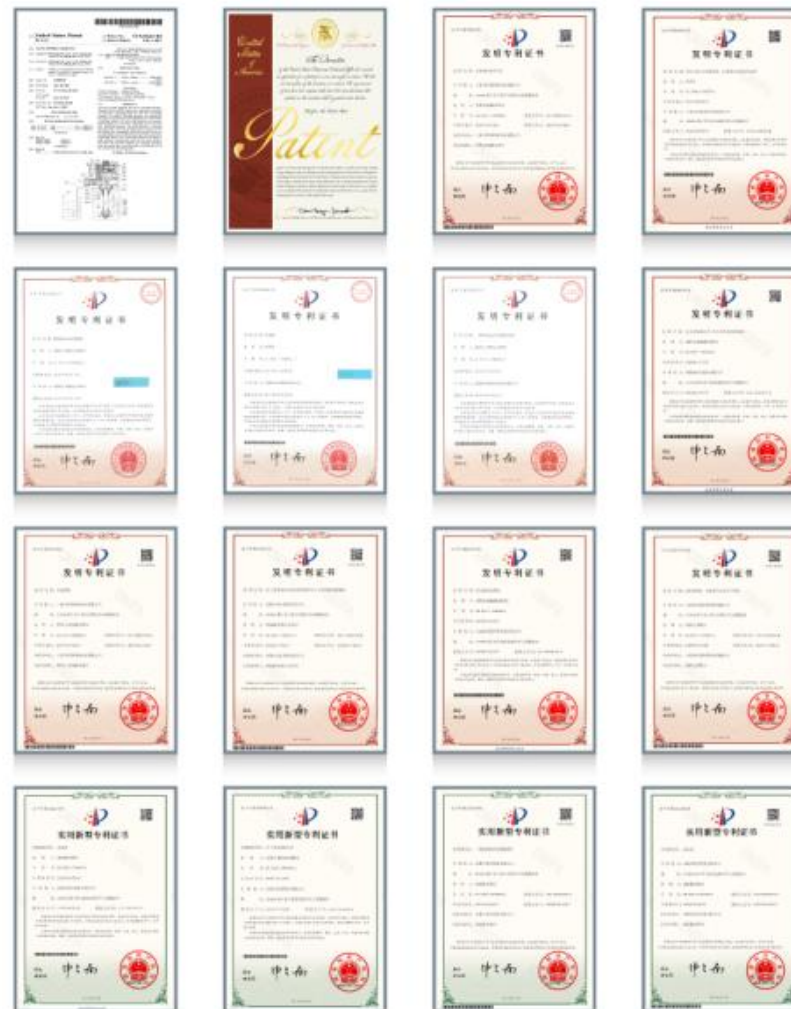

Annual production capacity of water softener and central water purifier: **100000** units / Annual production capacity of reverse osmosis machine: **100000** units

Annual production capacity of control valves: **150000** units / Annual production capacity of tap water filters: **800000** units

Annual production capacity of pressure tank: **2000000** pieces / Annual production capacity of filter housings and membrane housings: **5000000** pieces

The company currently has over **300+** employees, including **35** research and development personnel.

The company adheres to the vision of "employees living and working in peace and contributing to the human water purification industry", continuously improves its technological innovation and manufacturing strength, and is committed to becoming a trusted partner in the global water purification field.
