

#### **BELASSI**

At the core of our product lies our engine crafted by Belassi in Austria, with a commitment to superior power, torque, and fuel efficiency, it ensures an unparalleled experience without compromise. In our low-volume production, we prioritize our customers through a specialized and a customer-centric approach.

Also what sets us apart further is the exclusive status of being the only Personal Watercraft (PWC) manufacturer in the world that produces a series turbo engine, providing a unique edge to enhance your product portfolio.

#### **MPU APPLICATION VARIANTS**

The Marine Power Unit is specifically designed to fit in small Jetboats or Personal Watercraft up to 3,6 meters (12 feet) and waterjet Powered Boats up to 6 meters (20 feet).

# COMPACT SIZE PLUG & PLAY EASILY ADAPTABLE

With its small dimensions and weight of only 117 kg - the engine can be mounted on small boats without compromises

To simplify the whole process, the MPU can be connected to a battery, a fuel source and a water hose and then started up

All technical information for coupling shafts, motor mounts and electronic communication protocols will be made available

We focus on a customercentric approach, offering flexibility with a minimum order quantity of just 1 piece

#### **MPU MINI**

260hp

#### **MPU POWER**

330hp

#### **MPU PURE**

up to **400hp** 

#### PACKAGES OVERVIEW

	MPU Mini	MPU Power	MPU Pure
Peak Power hp	260	330	up to 400
Max RPM	7400	7800	8300
Fuel Requirement RON	95	95	95
Application	Jetboats until 6 m / 20 feet	Jetboats until 6 m / 20 feet	PWC / Jetboats until 3,6 m / 12 feet

#### **ENGINE SPECIFICATIONS**

Engine type	Marine 3 cylinder - 4 stroke	
Displacement	1602 cc	
Length x Width x Height	100 x 50 x 60 cm / 39.3 x 19.6 x 23.6 inch100 x 68 mm / 3.9 x 2.7 inch	
Bore x stroke	Turbocharged with water-cooled intercooler	
Intake system	Pressure control via electromagnetic wastegate valve	
Turbocharger	Water cooled with water injection	
Exhaust system	DOHC - 12 V	
Valve train	9.1:1	
Compression ratio	Full dry sump 6-stage gear pump	
Lubrification system	Open loop cooling	
Cooling system	Made of aluminium	
Valve cover	Cylinder liners: NSC coated, forged crankshaft,	
General information	conrod and piston for high engine performance with	
	low pressure casting	
Weight	117 kg / 260 lbs	

#### STANDART PACKAGE

#### WHAT IT'S INCLUDED

In every Marine Power Unit Package it's already included the following components:

- Engine + Water to air intercooler
- Wire harness with complete E-architecture
- ECU
- Starter relay with start stop
- 5 inch Touch Display

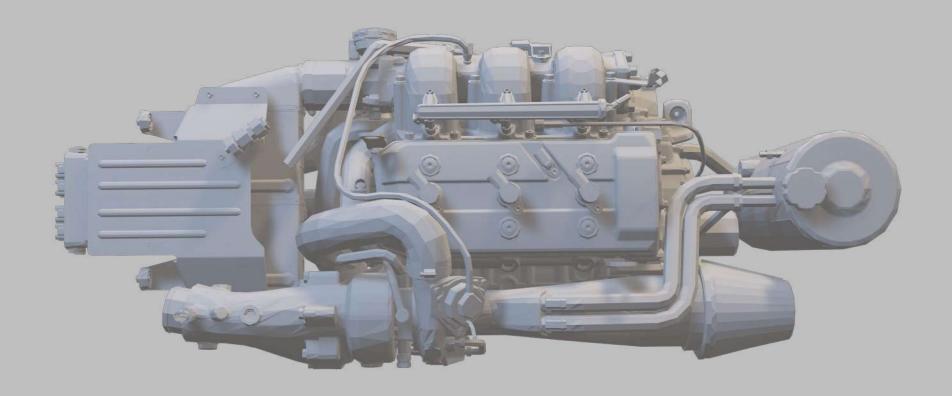

#### ADDITIONAL COMPONENTS

#### **AVAILABLE ADD-ON**

Additionally, there will be a variety of options available to add on, including:

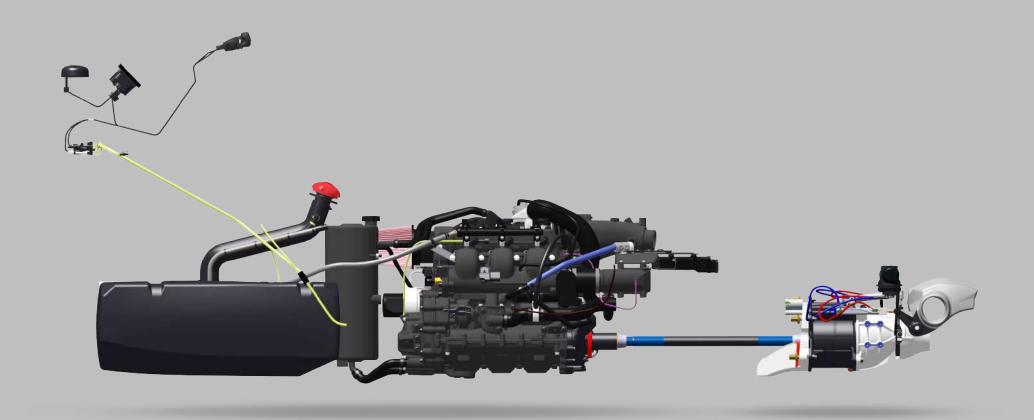

- Jet pump with drive shaft
- Additional alternator for second battery
- Handlebar mounted throttle lever
- Hydraulic brake / reverse and trim system
- 7" touch screen color display
- Mode Keypad
- Fuel system (pump and sender or complete tank)

#### COMPONENTS OVERVIEW

#### *G25-550*

- G Series Compressor Aerodynamics for maximum performance
- 48mm Turbocharger compressor wheel
- 80% maximum compressor efficiency
- MAR-M Alloy Turbine wheel rated up to 1050°C / 1922 °F
- Stainless Steel turbine housing rated up to 1050°C / 1922 °F

#### **FEATURES**

#### STANDARD FEATURES

- High intensity led status indicators
- Multicolor LED backlight
- RGB LED indicators
- Event status transmission
- Periodic status transmission
- Vertical or horizontal mount
- LED acknowledgement

## THE MARINE HYPERCRAFT BURRASCA

We combine the performance of our Marine Power Unit with the current Personal Watercraft to create the most luxurious and best performing Marine Hypercraft on the market.
