company

One Software Solution for Your Cleaning Company

Reduce time spent on administrative
tasks and free up time to gain new
clients and grow your business

Intelligent
Scheduling

Audits for
Quality Control

App with
Time Tracking

Faster
Invoicing

Complete Overview and Accessibility

Get a general view of all your tasks, clients and employees. CleanManager is an online tool that can be accessed anytime, anywhere - by computer, tablet or phone.

Plan Intelligently to Help Grow Your Business

When you get a complete overview of all tasks and automate the administrative routines, it allows you to spend more time on new clients and grow your business.

Flawless Invoicing of Performed Services

Free up time by automating your invoice calculation and eliminate errors. You can seamlessly integrate with your accounting software for quick invoice calculations and transfers.

Automate Routine Work and Eliminate Typing Errors

Get the correct basis for calculating wages every time. CleanManager automatically sums up your entire payroll including any relevant supplements based on tasks planned in the calendar.

Complete Control of Time Consumption

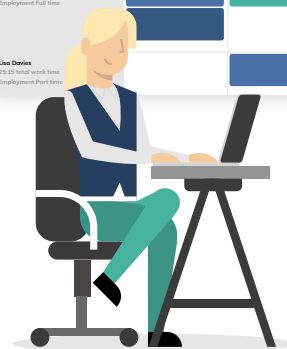

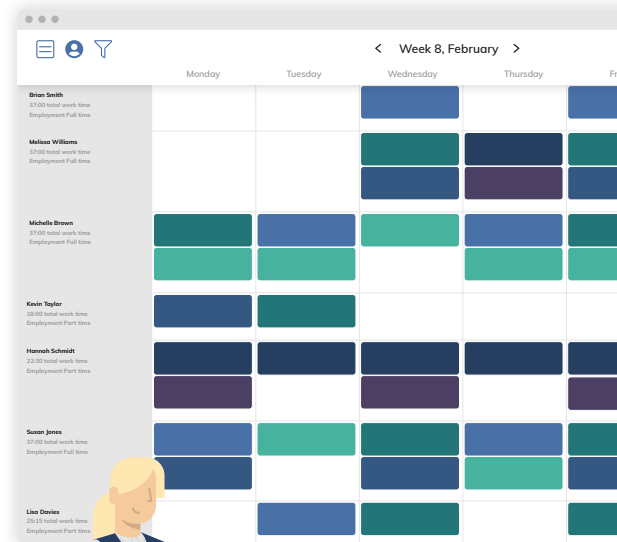

Gain an overview of time on each task, ensuring accurate invoicing and wage calculations – every time. For extra security and documentation, use NFC tags for clocking in and out.

Maintain Your Clients with Documentation

Increase security and value for your clients by documenting performed services. Digital audits, photo documentation and time tracking help retain your clients.

Automate Your Workflow with CleanManager

CleanManager offers an all-in-one management solution tailored for the cleaning industry, enhancing operational efficiency and profitability for both small and large companies. It streamlines scheduling, automates administrative work, and provides a centralised system for managing tasks, clients, employees, and documentation.

With CleanManager, companies achieve a comprehensive overview essential for growth. The app provides staff with immediate access to essential information, such as work plans, addresses, audits, and safety data sheets. This enhances communication, reduces the need for paper, and enables efficient time tracking. It simplifies invoice processing by integrating with the accounting software you already use and automatically calculates wage hours, including any supplements.

“*Edinburgh commercial cleaning Ltd have been working with CleanManager for nearly 6 months now and it has been a game changer for us in the way it has helped transform our business. It has also been a fantastic selling point when quoting for new contracts as the client portal is very appealing to office managers allowing them involvement in the cleaning of their building. The CleanManager team have been excellent when ever we have needed assistance but to be fair it's very easy to use and our team have adapted very well since we put this system in place. We would highly recommend this system.*”

Keith Edgar, Director
Edinburgh Commercial Cleaning Ltd
