

Supply Pedestal T8

SURPRISINGLY ELEGANT SUPER-YACHT POWER SUPPLY PEDESTAL

Betally T8 is excellent quality in an elegant and innovative design. The model is manufactured in weatherproof and robust aluminium and therefore maintenance-free. The Tallykey T8 has a built-in energy-saving LED lamp at the top, so the supply pedestal can work as both work and mood setting light source and ensure your guest can see what they are doing even at night. The T8 supply pedestal is provided with individual relays and meters. All outlets and sockets are mounted and placed vertically, so they save space and are easy to access for the users. This user-friendly and thought out design ensures many years of maintenance-free operation, and gives optimal return of your investment and strengthens the supply pedestal's timeless and elegant look.

Quality that survives many years of outdoor use.

All Betally supply pedestals are developed and manufactured in our factory in Denmark, where skilled employees use robust and durable materials. Our products comply with all EU-standards and legal requirements for this type of installation. The pedestal is made of anodised aluminium, while bolts, shafts and screws are made of acid-proof steel, which means minimal maintenance. You will always be able to welcome your guests to an efficient marina or harbour in beautiful surroundings.

Supply Pedestal T8
