ANCHORED Join the

BOATING & SAILING

We are an industrial manufacturer that crafts exceptional marine hardware components on land, so that, at sea, some of the world's finest sailing yachts can sail with complete confidence and elegance. For more than 50 years, we have been designing and manufacturing robust and reliable rigging components, shaped by unique technical expertise — right down to the hand-polishing of our parts.

ROBUST, DURABLE 316L STAINLESS STEEL COMPONENTS, PERFECTLY SUITED TO MARINE ENVIRONMENTS.

TURNBUCKLES

Open-body, closed-body, double-body, backstay and quick-release turnbuckles.

TERMINALS

Eye terminals, articulated/fixed fork terminals, swage terminals, stemball terminals, T-terminals, stud terminals, threaded terminals.

TOGGLES

Simple, long, custom-made long, and special chainplate toggle.

COMPLETE RIGGING

Swaged and ready-to-install assemblies for all types of sailing yachts (Amel, Beneteau,...).

CABLES

Monotoron, Dyform, flexible, extra-flexible, coated and Rod rigging cables.

OTHER COMPONENTS

Pins, chainplates, insulators, sheaves, tip cups and more.

ARCHITECTURE & CONSTRUCTION

Glass facades with cable supports, bridges, complex architectural structures, mobility and industrial solutions: favorable winds are driving our growth, enabling us to develop rapidly and move forward together with our clients and partners.

CUSTOM-MADE SOLUTIONS

ACMO manufactures custom-made parts based on your drawings, files, or technical specifications, ensuring that all project's requirements are met precisely in the marine, architectural, and industrial sectors. We produce both one-off components and small production runs with a high level of precision, quality, and reliability, regardless of the complexity of the project.

We are united by the same passion.

On land, it is the passion for a job well done: robust fittings, a wealth of technical data and expertise built over more than half a century, and meticulous craftsmanship down to the hand-polishing of our components. All of this is dedicated to ensuring that, on every sea around the world, you can sail with complete confidence, knowing you have made the right choice.

Our rigging products, as well as our custom-made solutions for architecture (glass facades, bridges and complex structures incorporating stay cables), our custom creations for mobility and industry, all reflect a commitment to excellence that is deeply rooted in our values, and one that we are proud to share with you.

Philippe Welker,
ACMO President
