Export

Hsc has been exporting to more than 50 countries

Istanbul Factory

Hsc Istanbul factory is located in total as 30.000 m².

Injection Plant

Hsc owns 13 injection machines with 70 - 100 - 120 - 200 - 230 - 320 - 450 - 700 tons capacity (Haitian or Tederic models) and more than 250 molds including jaco fittings - reverse osmosis undersink model cases - separators - jaco elbows - 2" jaco inline filters - 2,5" jaco inline filters - Quick Change type filters - 1812 jaco membrane housing - clips - 10" Shell case - jaco shutoff valve - jaco nuts - 10" GAC - 10" Filter Housing & wrench - etc... With its Professional engineering / R&D / QC / manufacturing line; Hsc gives a full service to its customers on water treatment field. Operations of injection section goes on 24hours with two shifts. OEM mold design & application and outsource injection service given to the customers.

RO Assembly Plant

Hsc has three lined Reverse Osmosis Systems assembly plant with Professional team members and QC units. Monthly capacity differs between 30.000 - 40.000pcs. Local and exported OEM requests are carefully assembled with special designed sticker, label and carton box offers. Hsc offers case-filter-fittings mold designing service to the local and export customers. Company owns more than 30 different case models, patented and trade registered.

Filter Production Plant

Hsc owns a auto filter production plant including automatic filter filling – spin welder glue-ing – ultrasonic welding – shrink packing machine lines. Capable of manufacturing 2” inline filters – 2,5” inline filters – quick change filters – 2” post carbon filters / alkaline filters / mineral filters / 4in1 mineral filters – 10” activated carbon or resin filled Shell case – 10” GAC. 10”-20” CTO – 10”-20”-30”-40” PP / BB-PP.

Istanbul Head Office

Project Engineering & Industrial Production with **Technical Support**

We design the systems for special application such as Pure and Ultra-Pure Water systems. With increasing global needs for reliable sources, our research and development division has focused on developing innovative components and systems. Our strict quality control standards ensure that each component and system we develop is designed and engineered with precision and accuracy. Project engineering / industrial manufacturing / plant design / supervisory of water treatment applications / assembly and activation / after sales service for industrial plants & material supply-sourcing are the main fields that our team is focusing on. With the power & support of well known brands such as Toray – CSM – Vontron – Pentair – Clack – Canature etc Hsc became an indispensable value in global water treatment market.

Sales

HSC has become the favored choice of our clients owing to the following factors :

1. Ethical Business Practices.
2. Expert team of professionals.
3. Quality range of residential & industrial process equipment.
4. Advanced manufacturing facilities, R&D / QC departments.
5. Packaged consignment as per client requirements.
6. Customized solutions.
7. Timely delivery.

Warehouse & Logistics Team

We have well experienced Logistics dept & rate contract with various freight forwarders for best freight rates.

Finance & Account

This part is one of the most important sections in our company where we take our power from. With 25.000.000 USD paid capital of %100 Turkish source; we always preferred %100TT payment term with the global suppliers. Hsc has a continuous powerful cash flow and is leading in the water treatment market globally.

Kitchen

As a professional water treatment company we care about environment and human. This is why we have Professional cooks in our Office, and we eat lunch all together with our team. Calorie controlled, Daily changing, homemade, various clean food is one of the most important step for our company to reach health and personal success.
