AgroArgentum® Forte

Liquid 9-6 NK EC Fertilizer

contains colloidal silver to keep the plant with an active metabolism

ADVANTAGES FOR YOUR PLANTS

1. **Enhanced photosynthesis**
2. **Increased flowering** and more harvest
3. **Stronger plants** resilient to stress
4. **Healthy rooting**

AgroArgentum®

Liquid EC fertilizers with optimized nutrient concentration

THE FUTURE OF AGRICULTURE

Increase Photosynthesis

AgroArgentum® Bor

2% boron EC Fertilizer

contains colloidal silver to keep the plant with an active metabolism

For best results in your crop: Combine with our other products

Liquid EC fertilizer
with 3 % elemental
copper colloidal
particles

SAVE

RESSOURCES

AgroCyprum®

Small particle size for
high bioavailability and
uptake

Helps the plant to recover
and gives a healthy green
foliage

Corrects and prevents
copper chlorosis

Production with **less
residues**

For best results in your crop: Combine with our other products

Liquid EC fertilizer
with 15 % iron
colloidal particles

THE BEST
IRON
FERTILIZER

AgroFerrum®

Lower input
rates to
support
sustainable
farming

Small particle size for
high bioavailability and
uptake

Corrects and prevents
iron chlorosis

Works at any pH-value

High efficiency

For best results in your crop: Combine with our other products

Liquid EC fertilizer with
20% calcium (CaCO_3)
1.5% magnesium (MgCO_3),
1.5% silicon

Based on microfine ground
rock flour for superior
bioavailability

PRODUCTION
WITH
**LESS
RESIDUE**

Supply your plants with
the BEST NUTRIENTS

Promotes early-stage root and shoot development

For best results in your crop: Combine with our other products

SPEED UP
**YOUR
GROWTH**
