

THE TAMBO EVO HINGE

The smart solution for luxury features

Navim Group, through its Yacht Division, Tecnimpianti Livorno, presents the **TAMBO EVO HINGE** to run for the DAME AWARD 2025 in the Deck Equipment (point 7 of the Regulations > Dame Categories).

We hereby declare and attest that we are the sole and rightful owners of the intellectual property described as the **TAMBO EVO HINGE** and that no other entity or individual holds any claim or rights.

THE TAMBO EVO HINGE

The smart solution for luxury features

The Tambo Evo hinge has been developed for the operation of complex closing systems, such as lockers, hatches, and doors with flexible coverings up to 100 mm thick. The hinge's unique geometry and kinematics enable a dual movement: an initial translation phase, followed by a rotation.

CLOSED SOFA FEATURING HIDDEN TAMBO EVO HINGE

THE TAMBO EVO HINGE

The smart solution for luxury features

In the specific case of the sofa, this mechanism allows the seat to be removed from the backrest and then easily lifted. The hinge is made of AISI 316 stainless steel with a mirror-polished finish, ensuring high corrosion resistance and a premium aesthetic, as well as exceptional strength. Once the hatch is closed, the hinge remains completely hidden; when open, however, it is visible, yet with a refined and attractive design, in line with the aesthetic requirements of high-end furniture and nautical systems.
