

Satino PureSoft

The new standard for hygiene paper

Our raw material innovation for the future

- ✓ The new high quality toilet paper of the future for your sustainable washroom. 100% recycled – made from cardboard
- ✓ Soft and absorbent premium quality and one of the softest natural coloured papers on the market
- ✓ The result of intensive research and innovative paper technology at WEPA
- ✓ A future-oriented solution for the circular economy – by tapping into recovered paper
- ✓ The new gold standard in the fibre recycling cycle: the use of fibres that have already passed through several recycling processes

Top performance in sustainability and quality

- ✓ 100% soft and absorbent
- ✓ 100% unbleached – sustainable at first glance
- ✓ 100% hygienic and safe in all applications
- ✓ 60% virgin plastic saved
- ✓ Easy to dissolve already after 20 seconds
