## Custom:

We can customize your anchor as you like.

# COMPACT High Holding Power Anchor

High Holding Power anchor allow a weight reduction of 25% compared to an ordinary anchor.

The most compact stockless anchor, suitable for small anchor pockets. Same weight, smallest sizes.

The only one made in Italy by qualified workers.

Made of certified high tensile steel plates.

10% shorted shank possible.

Available in hot dip galvanized execution, special stainless steel DUPLEX®, electro-polished and super passivated.

Compact anchor is designed for all boats that have small pipes and need great performance.

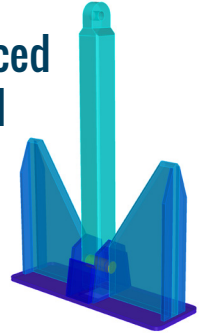

The two side plates allow it to penetrate the ground and act in different directions, giving it a super strength.
