

EASY TIME & ATTENDANCE
VIGILANT
FOR FIELD OPERATIVES

PROFESSIONAL APP

PROFESSIONAL APP

A professional tool at your fingertips.

SECURITY & SERVICES companies they use it to manage the work to be carried out by the GUARDS and/or ASSISTANTS.

Reliable and accurate, it keeps schedules tracked without the constant attention of supervisors.

From the PROFESSIONAL APP, Control Center receives in time actual records certifying:

The Starts and ends of service, the Rounds and Scheduled Attendances, the control of inactivity, indicates the GPS position and the Made Routes, the Incidents and remarks.

With this APP, at the end of the service, an Electronic Part with all the records and annotations that occurred.

PROFESSIONAL APP

ADVANTAGES

The App works using NFC technology and sends real-time information to the web platform automatically. The operator only has to bring the NFC mobile closer to the tags placed on the different customers to make the markings. In addition, it allows the management of incidents with a photo, GPS route of the employee, work reports, planning of services, generates alarms for non-compliance with them and much more.
