

## P3 Led Display Radar Speed Sign

### P3 Led Display Radar Speed Sign

### Product list

- Radar speed sign:1
- Hoop:2
- M12\*65 screw + nut:4

### Specification

- Model: SP-3-AL-70x50-AC-JK001
- Material Code: YDZ.01.04.122 (Mains)
- Radar frequency: 24Ghz
- Radar Accuracy: < 2km/h
- Radar detection range: 200 meters
- Visibility range: ≥200 meters
- Optional power supply: Mains AC 100 - 240V or Solar-powered DC 12V
- Total power consumption: ≤ 10W
- Bluetooth configuration parameters:Multi-functional
- Speed Test Mode: Inbound, Outbound, Bidirectional (Inbound by default)
- Speed Limit Mode: Adjustable; displays green speed values when not exceeding the limit, red speed values when exceeding the limit (configured based on posted speed limit signs)
- Max Display Speed: Both 99 km/h, minimum starting speed 1 km/h (default 5 km/h)
- Brightness Adaptive: Daytime brightness increases, nighttime brightness decreases
- Solar-Powered Battery Run Time: Under 12V 20AH specifications, continuous rainy days last approximately 3-5 days (subject to actual traffic conditions on the route)
- Dimensions: 700\*500\*130mm
- Packing Weight: 19kg
- Working environment temperature: -20 - +70°C
- Operating temperature: -40°C~80°C

### Application Scenarios
