

SAFER ROADS, SMARTER SOLUTIONS, PROTECTING COMMUNITIES

Sentio Shield is the smarter, less intrusive and more accurate and effective way to reduce speeding and its inevitable consequences

Sentio Shield combines 4D tracking and 4K colour camera

Can monitor up to 5 lanes in any combination of approaching or receding

No visible flash or white light and no in-ground sensors or road markings, requiring very little infrastructure and may be easily relocated and calibrated on-site

SENTIO CAMERAS, ANY SCENARIO, ANYWHERE, ANY TIME

HOME OFFICE TYPE APPROVED (HOTA)

FEATURES

- Spot Speed camera
- Totally non-invasive
- 4D Radar method of detection
