The Emission Experts

Europe's leading Heavy Duty Exhaust
& Emission supplier for the Aftermarket

Quality: Why settle with benchmarks?

As a Tier 1 supplier to some of the world's leading OEMs, Dinex sets high internal standards for quality. We develop and produce 95% of our entire range ourselves, and always aim to meet or exceed OE grade, while remaining competitive for the Aftermarket.

Warranty: Most of our range is covered by a 3-year unlimited range warranty. Reconditioned parts is covered for 2 years, and remaining Mechatronics for 1 year.

Type Approval: Our entire range of Euro VI DPFs, DOCs, SCRs, and complete Silencers are Type Approved: Your guarantee for legal compliance and exceptional durability.

Training: Demystifying Emission Technologies

Emission technology can be complicated, but our technical experts are always ready to support with training for both basic and more advanced levels and troubleshooting as needed. Moreover, our online resources are packed with guides, instructions and videos.

Shipping: Where, When and As you want

With 10 warehouse locations and **>95% stock availability**, Dinex is ready to deliver within 24 hours in most parts of Europe – and in some cases even within the same day of ordering.

eCommerce: As easy as it should be

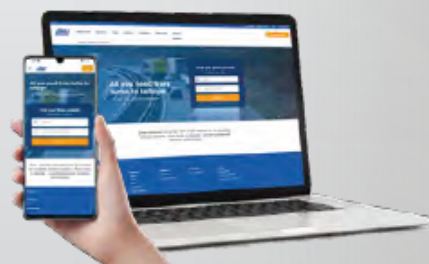

Our entire portfolio is available through our award-winning websop, with detailed specifications, technical drawings, instructional videos and affiliated parts. Get started in less than 5 minutes, and enjoy functionality that makes your business easier.

Mechatronics: Available & Innovative

Dinex' range of Aftermarket NO_x-, Pressure and Temperature Sensors, Fuel Injectors, and Pumps, Filters and Injectors for AdBlue® are every bit as good as their OE counterparts.

Generation 2 NO_x-sensors

Doing away with traditional Aftermarket prejudices, Dinex' 2nd Generation NO_x-sensors are built using latest sensing components that gives improved accuracy, and thereby reduced AdBlue® consumption. With smarter software that ensures seamless compatibility, you can expect a sensor every bit as good as an OE – at Aftermarket price.

Complete Exhaust Systems

Over 15,000 Parts for Euro 0 to VI – Developed & Produced by Dinex.

V-Clamps:
European made quality

Flexible parts:
Bellows, or Dinex' own
OE-endorsed D2S+ design

Thermal Insulation:
Tier 1 supplier to OEMs

Pipes:
Automotive grade materials
in bended design for better
flow & durability.

Silencers

Sensors

DPFs
(Diesel Particulate Filters):
New or Reconditioned range,
all Type Approved – naturally

DOCs
(Diesel Oxidation Catalysts)

SCRs
(Selective Catalytic Reduction)

NO_x sensors
Save costs with a Smarter,
More Accurate, and More
Durable alternative.
