

Working together for efficiency and reliability below deck

Specialist in compressed air systems, pumps, and technical components
for the maritime industry

WE CONTROL YOUR FLOW

We are Luitec

With more than 25 years of experience, Luitec is a specialist in technical solutions and related services for the maritime sector. From luxury yachts to commercial vessels, we support yacht builders, shipyards, and shipowners with our high-quality products and services. Our goal? To ensure your vessel performs optimally, anywhere in the world.

From standard compressors to custom solutions

Luitec offers a wide range of high-quality technical products essential for the construction, maintenance, and optimization of your vessel.

Compressed air systems
(working air, starting air, breathing air)

Compressed air treatment

Pumps and pumping systems

Valves and accessories

Engine room and workshop
equipment

Yacht supplies

From concept to completion with our services

In addition to advising and supplying high-quality compressed air and pump systems, we take the workload off your hands with our comprehensive services. From concept to completion and from installation to on-site maintenance, we manage your entire project. Discover how our services can support your project.

New Builds

Luitec provides complete pump systems for the new construction of yachts and other vessels, ranging from individual pumps to fully assembled pump skids. We handle engineering, design, fabrication, certification, and commissioning. With our years of experience, we ensure the correct pump selection and configuration for each specific application, including valves, control systems, and monitoring.

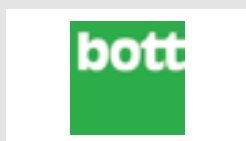

Refit & Maintenance

Our experienced service team is ready to meet all your repair and maintenance needs. Whether it's quickly resolving breakdowns or executing a fully planned refit program, we are available at any port or shipyard in the Netherlands, Europe, and beyond. With our expertise, we provide optimal service for your vessel.

Yacht supplies

Luitec offers a wide range of technical components and assists you in selecting and assembling spare parts for technical installations. In addition to our complete range of mechanical products, we also offer an extensive selection of yacht supplies, from deck wash products to household appliances.
