Automatic helm seat

# WHY MANTA?

The manta ray is known for its grace and lightness as it glides through the water. With its wide “wings,” it moves effortlessly, evoking a sense of calm and fluidity for those who watch it. This iconic shape and peaceful nature inspired the creation of the Manta chair, which, while equipped with advanced technology and innovative features, maintains a sleek and cosy design.

## Manta, automatic helm seat

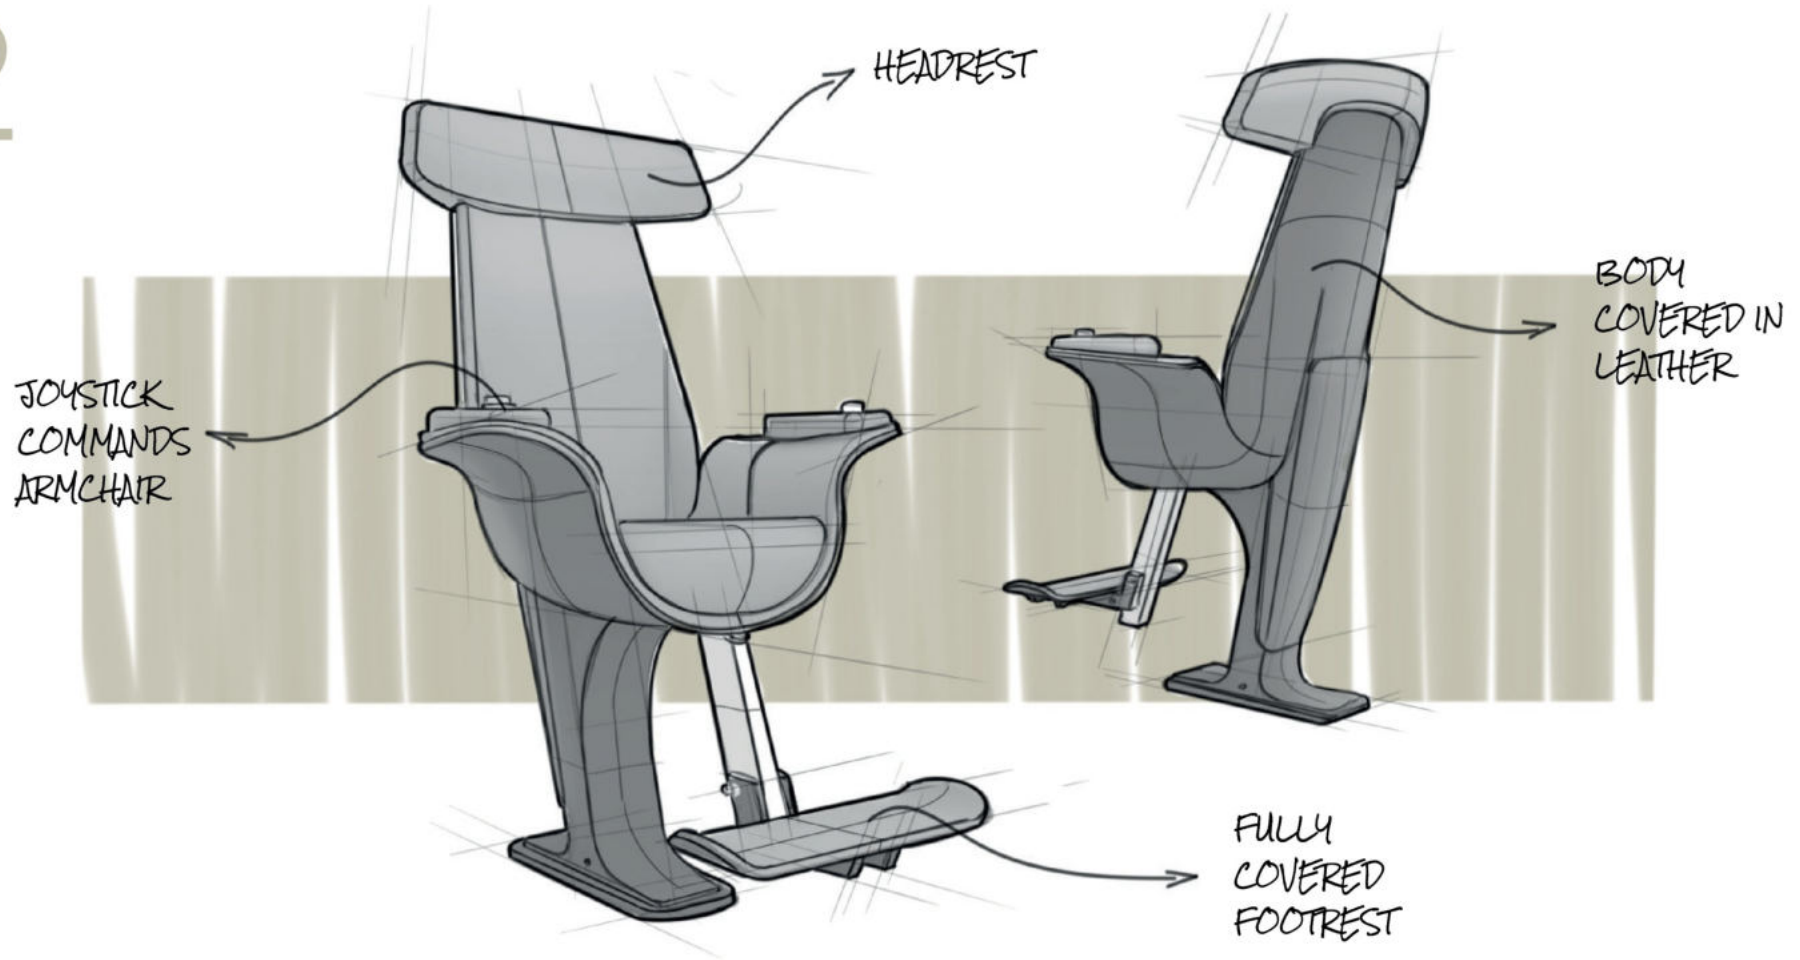

Designed to provide an unparalleled comfort experience, the Manta chair will make you feel as if you're floating. Every movement is smooth and harmonious, tailored to meet your specific needs, just as the manta ray adapts to ocean currents.

**ERGONOMY**

## Manta, automatic helm seat

Manta has been developed with a special focus on ergonomics, offering electric automatic adjustments for the backrest recline, footrest height, allowing for an optimal and personalized seating position for every yacht owner.

04

**EQUIPMENT**

## Manta, automatic helm seat

In addition to these ergonomic features, Manta incorporates technologies that enhance perceived comfort; the adjustment controls are conveniently placed on the armrests. The chair also includes a practical contactless phone charging system built into the armrest, providing a complete and seamless driving experience.

## 06

## DIMENSIONS

The pilot seat's overall dimensions are precisely calibrated to fit perfectly into any nautical environment, with carefully crafted details that ensure comfort and functionality.

**Dimensions:**

The maximum dimensions of the chair are 1485 mm in height, 935 mm in width and 1110 mm in length. The seat cushion has a width of 455 mm and a depth of 460 mm. The headrest has an excursion of 100 mm.

## Artisanal craftmanship

The Manta chair is entirely hand-finished, using high-quality leathers that embody the essence of maritime tradition. Our artisans meticulously craft every detail, instilling a sense of nautical heritage in each creation.

### The Besenzoni Atelier division

Besenzoni's ATELIER division specializes in upholstering helm seats, nautical sofas, and furniture for motor or sailing boats. We use premium materials, such as marine-specific fabrics, leather, and eco-leather, enhanced by tone-on-tone or contrasting stitching.

Tests of contrasting stitching on the leather.

Custom molded foams.

Our tailors dealing with the stitching of the leather chosen for Manta.

## Selected Materials

The materials chosen for the Manta chair echo the natural beauty of the manta ray. Two types of exclusive leather, inspired by the texture and colors of this fascinating creature, wrap the chair, offering a visual touch of refinement and a unique tactile sensation. The soft and slightly textured surfaces evoke the subtle shades of the manta, creating a perfect fusion of nature and design.
