

FEND&EA
MULTIPURPOSE FENDERS

2026 Catalog

Fendsea

Fendsea is reinventing both the **use** and the **aesthetics** of fenders by offering boaters an integrated **storage solution**, delivering optimized onboard space and maximum protection for equipped boats & yachts.

PERFORMANCE

The patented inflatable Drop Stitch technology provides **2.5 times greater protection** and allows you to **cut in half the number of fenders needed** on board.

DURABILITY

The inflatable feature combined with Drop Stitch technology provides **a lifespan three times longer**.

MULTIPURPOSE

The integrated storage in the fenders allows boaters to **optimize onboard space** and take advantage of a **wide range of accessories**, thereby expanding the traditional use of fenders.

AESTHETICS & CUSTOMIZATION

Fendsea's reimagined design and **customization options** make each fender series truly **unique** — a sleek, stylish addition perfectly aligned with the **high-end positioning** of today's finest boats.

FENDSEA'S LINE

Your Fendsea, your style...

The pioneer in custom-made fenders, Fendsea has developed three lines of products tailored to meet the needs of all boating industry professionals:

-  Fendsea Race Line - designed for racing sailboats
-  Fendsea Cruise Line - made for boats ranging from 5 to 20 meters
-  Fendsea Prestige Line - crafted for yachts from 20 to 50 meters, featuring a premium design suited to this high-end segment

RACE

CRUISE

PRESTIGE

Coming in 2026...

RACE LINE

The **RACE** line is purpose-built for professionals and sailors competing in regattas and offshore races. It features ultra-high-performance fenders, developed to meet the technical demands of high-intensity sailing. Every detail has been refined to endure the most extreme conditions at sea.

FLAT RIGID High-density Foam

FS 45 - Rigid

High-density Foam

Technical features

- **Target:** Ideal for boats from 7 to 12 meters
- **Dimensions:** 45 cm wide (x) 60 cm high (x) 25 cm deep
- **Storage Capacity:** 20 Liters
- **Others:** Waterproof, easy to clean, and customizable

Standard colors available *(PVC coating)*

Customization

- Custom logo and extended color options available on request

FENDSEA'S LINE

FS 60 - Rigid

High-density Foam

Technical features

- **Target:** Ideal for boats from 9 to 20 meters
- **Dimensions:** 60 cm wide (x) 60 cm high (x) 25 cm deep
- **Storage Capacity:** 30 Liters
- **Others:** Waterproof, easy to clean, and customizable

Standard colors available *(PVC coating)*

Customization

- Custom logo and extended color options available on request

CRUISE LINE

The **CRUISE** line is designed for leisure boaters and owners of sailboats and motorboats from 5 to 20 meters.

It offers high-performance fenders with customizable designs, combining style, functionality, and a wide selection of accessories.

Inflatable and deflatable, they optimize onboard space while enhancing the boating experience beyond simple protection..

INFLATABLE FLAT

Drop Stitch

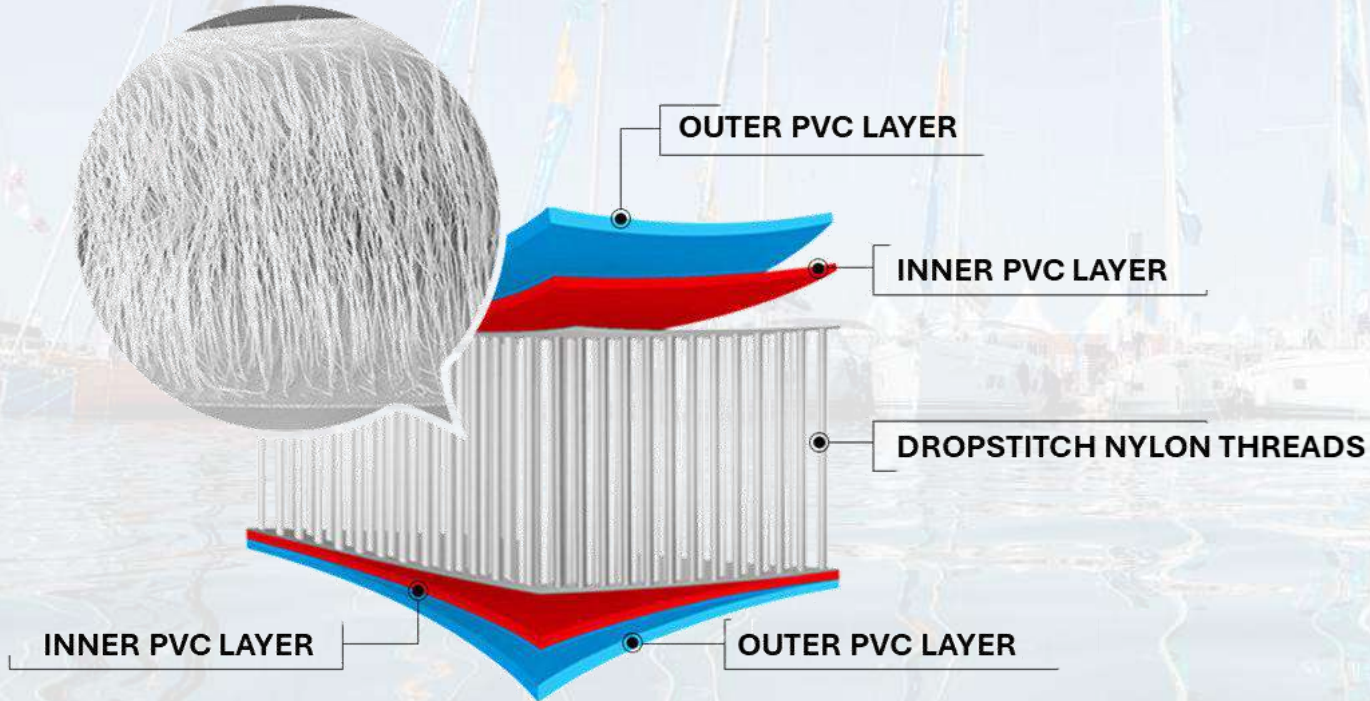

INFLATABLE TUBULAR

Drop Stitch

DROPSTITCH INFLATABLE FENDERS

FENDSEA leverages **Dropstitch technology** to reinvent inflatable fenders. This innovation marks a significant shift from traditional manufacturing approaches.

Adjustable rigidity: Thanks to thousands of internal threads connecting both layers of the material, Dropstitch can be inflated to high pressure for near-rigid performance, or at lower pressure to better absorb impacts..

Impact and abrasion resistance: Typically coated with PVC or other protective layers, Dropstitch offers strong resistance to impacts and friction against hulls and docks.

Easy storage and transport: When deflated, it takes up very little space, making it ideal for onboard storage and transportation.

FSGF 20 - Inflatable

Dropstitch tech.

Technical features

- **Target:** Ideal for boats from 5 to 7 meters (16 to 23 ft)
- **Inflatable & Deflatable (Dropstitch):** Optimizes onboard space when deflated and stored (**Under 1 cm thick when deflated**)
- **Dimensions:** 20 cm wide x 45 cm high x 7 cm deep
- **Dropstitch thickness:** 7 cm
- **Others:** Waterproof, easy to clean, and fully customizable

Standard colors available (*PVC coating*)

FSGF 30 - Inflatable

Dropstitch tech.

Technical features

- **Target:** Ideal for boats from 6 to 9 meters (20 to 30 ft)
- **Inflatable & Deflatable (Dropstitch):** Optimizes onboard space when deflated and stored (**Under 1 cm thick when deflated**)
- **Dimensions:** 30 cm wide x 60 cm high x 10 cm deep
- **Dropstitch thickness:** 10 cm
- **Others:** Waterproof, easy to clean, and fully customizable

ACCESSORIES

To enhance the boating experience introduced by its innovative fenders, Fendsea also offers a selection of **Accessories** that transform its fenders into true multipurpose solutions

For Rigid Fenders

For Inflatable Fenders

FS 60 Race Line Accessories

FS Shoes

Shoe storage rack
Fits up to 4 pairs !

H60 X W24 CM

FS IceBox

Cooler compartment.
Storage capacity: 14 Liters

W23 x H35 x T17 cm

FS ToolBox

Rigid storage compartment.
Storage capacity: 13 Liters

W25 x H28 x T18 cm

FENDSEA'S LINE

Inflatable Accessories

FS Inflator

Effortlessly inflate or deflate your fenders

Electric pump – available in wired and cordless versions

3 power options:
car socket, wall outlet, or portable battery

TECHNICAL SPECIFICATIONS

- Pump power: 120 W
- Battery: 12 Volts
- Pressure range: 0–20 PSI
- Weight with battery: 2.07 kg
- Weight without battery: 1.65 kg
- Dimensions with battery: 32×18×9 cm
- Dimensions without battery: 29×18×9 cm
