

# AGROTEK INDUSTRIES INC

## Rooted in Nature. Driven by Innovation.

### ABOUT US

Agrotek is a proudly Indigenous-owned Canadian company producing OMRI-certified humic acid-based fertilizers and biostimulants. We help growers boost yields, improve soil health, and reduce synthetic inputs—all while supporting a more sustainable future.

### WHAT WE DO

We extract leonardite from responsibly managed Canadian mines to create **OMRI-certified** liquid humic acid solutions. Our products are tailored for use across a wide range of crops, including:

- Berries and fruits
- Leafy greens and vegetables
- Root vegetables and legumes
- Grains
- Greenhouse and hydroponic crops

### WHY IT MATTERS

Our products enhance root development, nutrient uptake, and plant resilience—empowering growers to do more with less.

### OUR IMPACT

We support regenerative agriculture and partner with farmers, agronomists, and researchers to help build a stronger, more resilient food system.

- 100,000+ acres enriched with our sustainable fertilizers
- 20 million+ plants thriving with Agrotek nutrition and rooting gel
- Up to 25% more yield and 30% less waste—proven in the field

### LET'S GROW TOGETHER

Agrotek is your partner in sustainable growth—whether you're a grower, distributor, or industry collaborator.
