

# Heads-Up Solution

Road safety enforcement system designed to detect prosecutable evidence of illegal driver behaviours

# Heads-Up, Anytime, Anywhere

Mobile phone-related distraction is a critical global issue, estimated to be responsible for the deaths of **100,000 people** and the injury of **5 million more** each year. Acusensus provides solutions that encourage behaviour change, reducing unlawful driving and the resulting deaths and serious injuries.

The Heads-Up Solution operates autonomously, 24/7, in all weather conditions to deliver prosecutable evidence of illegal driver behaviours via high-resolution images for evidentiary packages.

## Fixed Site

Permanent installations, typically located at high-risk, static locations. Provides 24/7, continuous enforcement.

## Trailer Deployment

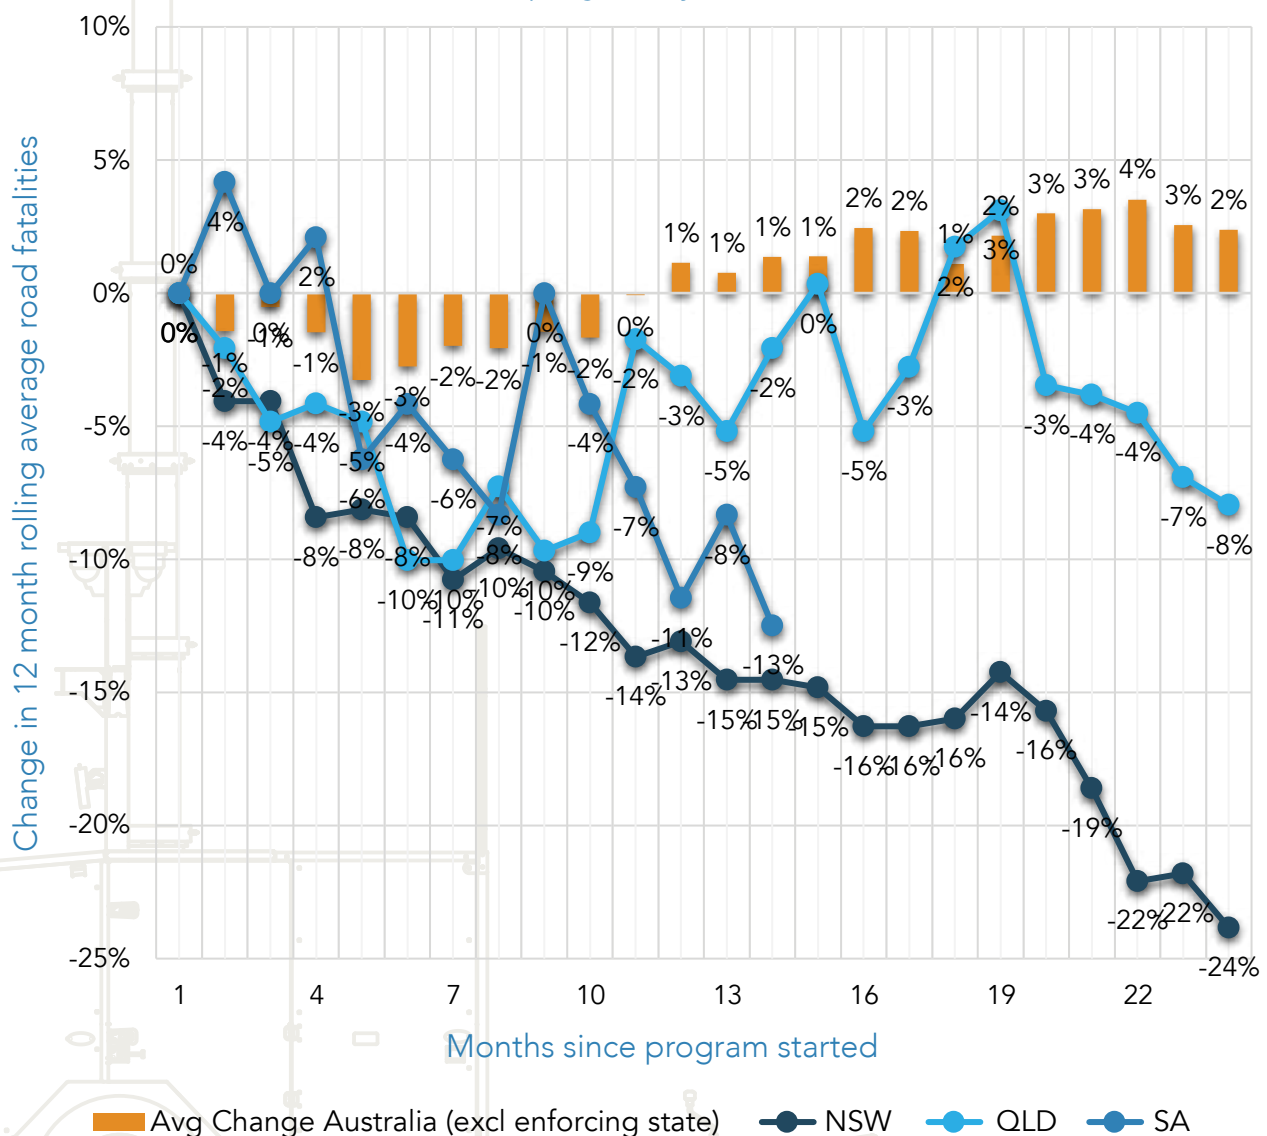

Transportable, trailer-based units equipped with integrated power sources. Enables unmanned enforcement in various road conditions.

# Changing Behaviours, Saving Lives

## Australian States Using Acusensus Technology Have a Demonstrated Reduction in Road Fatalities

Acusensus' impact is evident in the jurisdictions we operate in. We are committed to creating lasting behaviour change across our road network.

Change in road fatalities since enactment of mobile phone enforcement camera program by state

# Partnering for Road Safety & Community Impact

**Mobile Phone and Seatbelt Detection**

**Point and Average Speed Modules**

**Real Time Capability**

**All-Weather, High-Resolution Imaging**

**Secure & Compliant** certified to ISO/IEC 27001:2022  
(Information Security Management Systems)

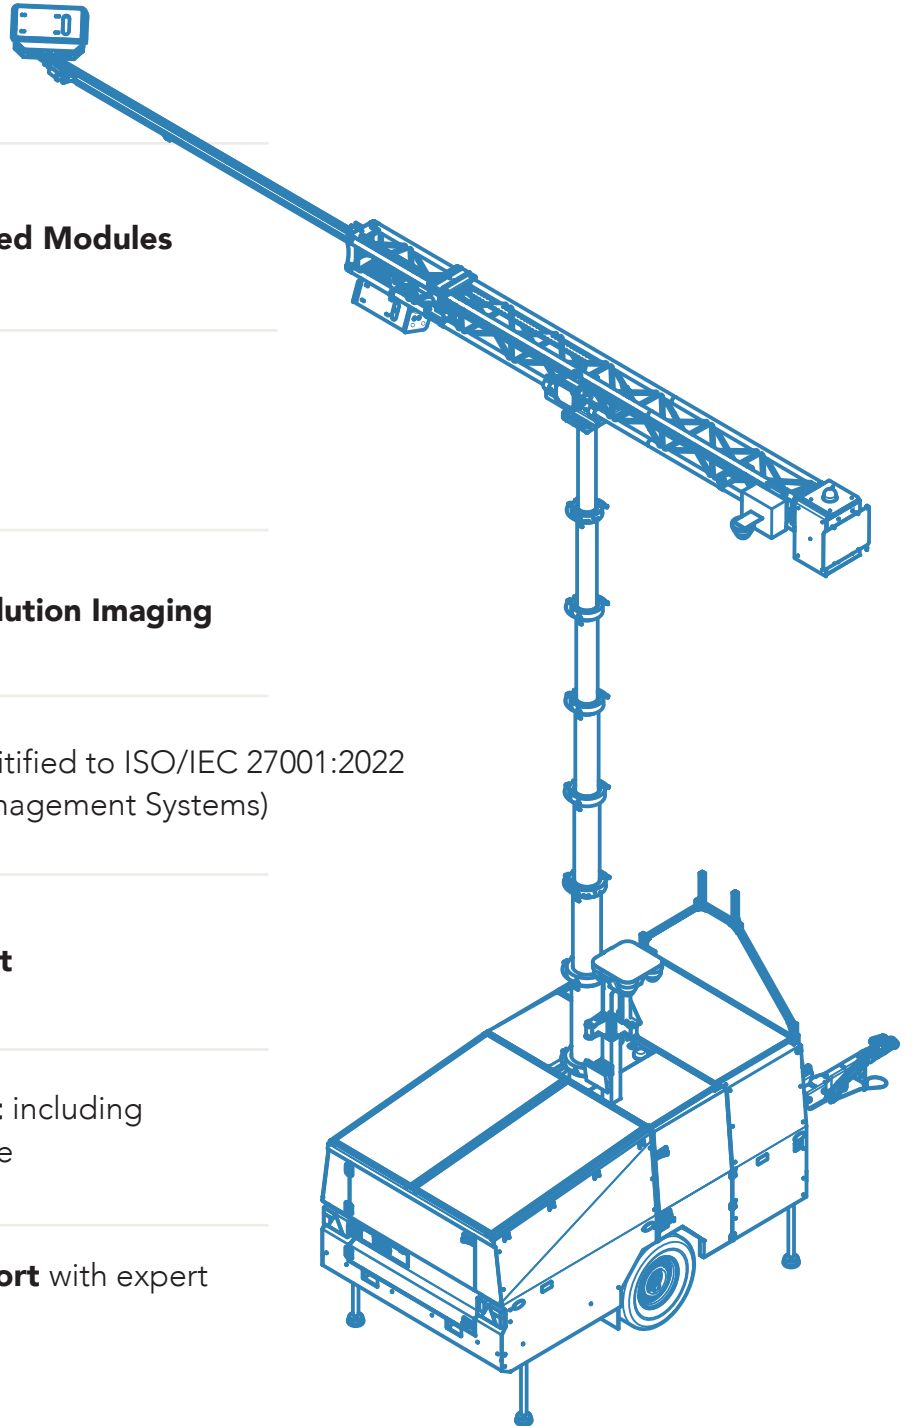

**24/7 Help Desk Support**

**Full Asset Management** including preventative maintenance

**Court & Judiciary Support** with expert witness services
