BoatHowTo.com/MDM

*"I learned something new on each and every lesson of your fantastic course!
Great content, nice presentation."*

*"This course is absolutely worth the money,
and surely I will spread the word as best as I can."*

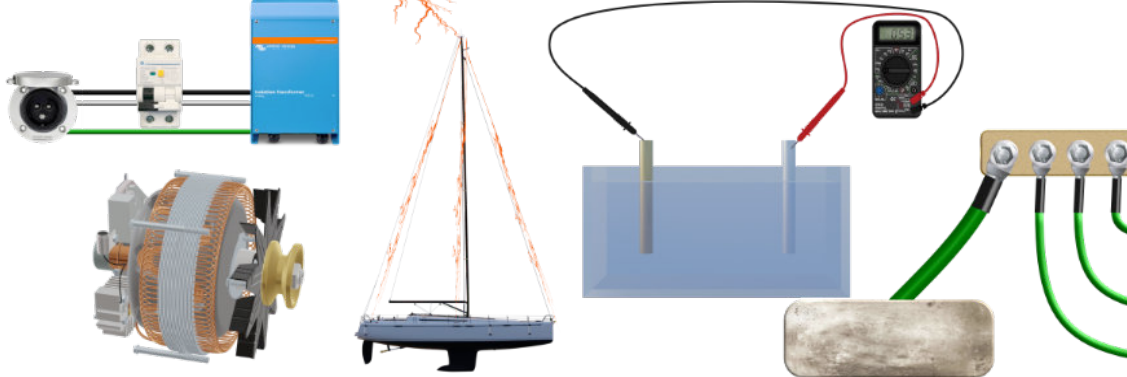

"I have 25+ years of experience, yet I am still learning a lot from the content."

- 59 easy to follow video lessons and more than **10 hours** of video presentations and animations
- bonus lessons on **troubleshooting**, alternative energy sources, & more
- extensive **case studies** for three example scenarios
- access to the BoatHowTo **Boat Electrics Planner**
- for surveyors & professionals: earn up to 19 CEUs

"This course has been by far the best in helping me understand how batteries work and the basic branching structure of OCP throughout a system."

"...it actually isn't only a course, but it is an evolving learning platform."

ADVANCED Marine Electrics Course

Master complex marine electrical systems like a professional

- 13 independent modules with 52 Lessons and **7 hours** of video presentations and animations
- topics include grounding, **AC systems**, corrosion prevention, lightning protection, alternator installations & controllers, generators and generator replacement technology, **lithium-ion battery systems**, optimized energy systems, networks, digital switching, and electric & hybrid propulsion
- for surveyors & professionals: earn up to 19 CEUs

BoatHowTo.com/AME

"You guys do a great job explaining and getting right to the point."

"Adding the BoatHowTo content really helps our school produce a higher level technician entering the field."

"I teach full, 9 month electrical courses at a community college. Anytime students want more, I steer them to your site - the best online electrical course I've seen!"

Our Mission is to provide you with the most reliable and accurate information about boat systems on the internet.

We are constantly working on our courses so they stay the go-to source of technical knowledge for sailors, boaters, and marine professionals around the world.

If you have any questions about our programs, or are interested in company or school licenses, please reach out to us at
