

Glass —Line—

YOUR GLASS WILL SHINE
TWICE AS BRIGHT

Glass
—Line—

Tools of the trade

*When dealing with glass surfaces,
TTS has a clear and precise mission:*

MAKE THEM SHINE!

The **Glass Line** has been designed to **achieve this goal,**
avoiding time and energy waste.

The **wide range of professional solutions is designed to meet every cleaning need,** from washing to drying and removing stubborn dirt. A complete range for brilliant glass that makes it easy to **clean even high or hard-to-reach surfaces.**

The choice of materials

*A careful choice of raw materials
brings undoubted advantages*

Stainless steel

- Reliable and non-deformable
- Resistant to intensive use
- Completely rust-free

Plastic

- Lightweight and handy
- Stainless, robust and long-lasting
- Fully recyclable

Aluminium

- Lightweight and robust at the same time
- Durable and long-lasting
- Easy-to-clean textures

Cleaning efficiency

*Rubber and fibre quality
decides cleaning quality*

Rubber blades*

High-quality natural rubber, cut using the **latest technology**: this is TTS's way of achieving **perfectly smooth and uneven blades** that ensure **unparalleled cleaning** and glass **wiping**. In addition, the closed-cell rubber undergoes a vulcanisation treatment to make it **resistant to abrasion and wear**, extending the life of the blade.

Textile fibres

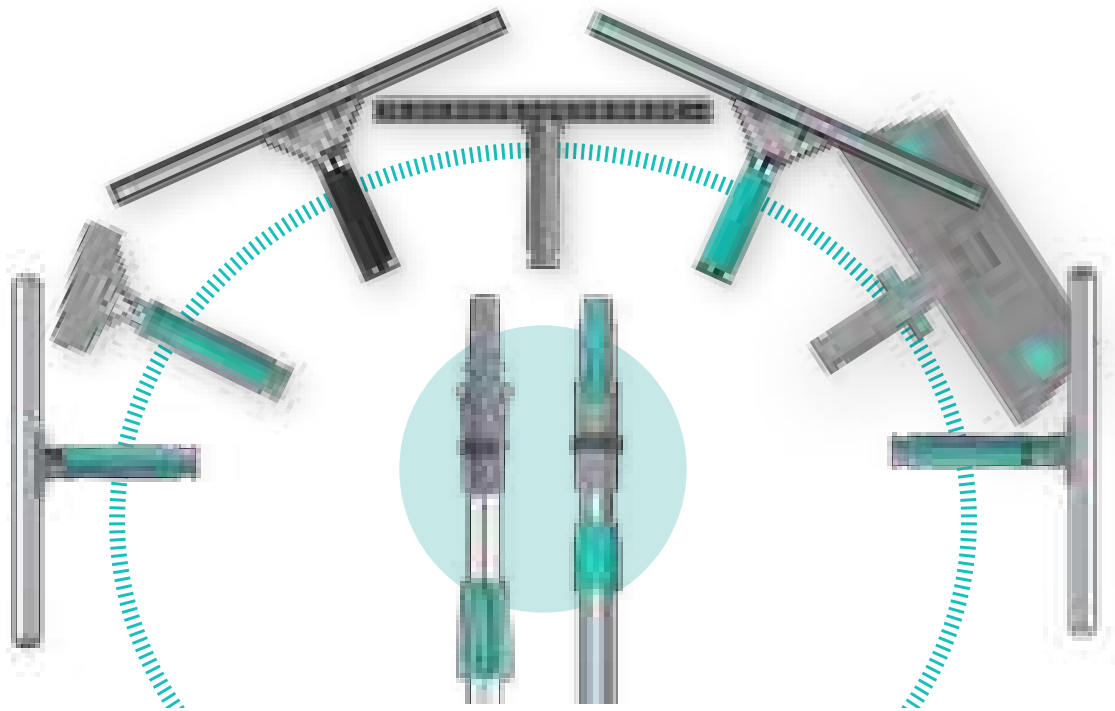

The selection of **top-quality** fibres fully satisfies the different cleaning needs, ensuring high performance both in terms of **washing time** and **mechanical action** on different types of dirt, guaranteeing **excellent results** every time. The white washer sleeves are also available in the version with an **abrasive side**, which is particularly suitable against the **most stubborn dirt**.

Attaching tools quickly

Each tool is equipped with italian thread and
LAMPO JOINT

Lampo system reduces time and increases safety, as it allows equipment to be instantly hooked to handles or poles, ensuring a firm attachment. The operator no longer has to pick up ladders or stools to reach high surfaces or fear accidental release during cleaning operations.

LAMPO SYSTEM IS EVERYWHERE

With Lampo, you have a **complete range of professional cleaning tools** at your disposal: the **Jack** adapter allows you to **use one handle with the entire range of dusters, web brushes, glass cleaning tools and floor frames**. In addition, the **Plug** device allows you to **release the frames directly on the trolley**, without any contact with contaminated surfaces.

with a few clicks

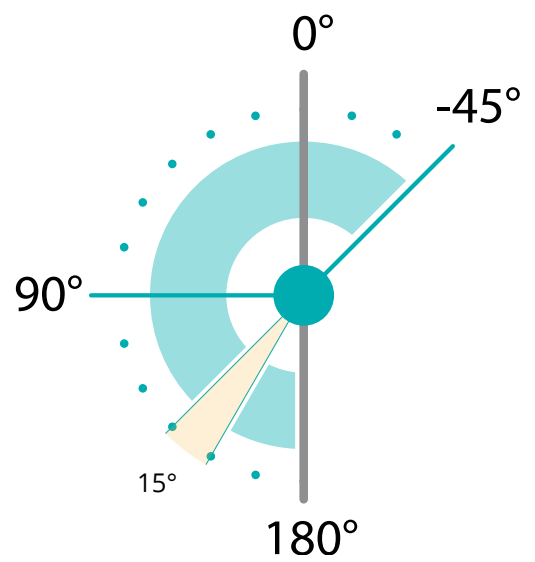

Glass —Line—

Jack Angled overcomes limits and obstacles

The **Jack Angled** joint overcomes the limits imposed by fixed-angle equipment, allowing a **free choice of inclination by adjusting it easily and immediately.**

Available in **versions for handles ø 23 mm and poles ø 21 mm**, the operator is no longer forced to equip himself with tools with different working angles, thus increasing the costs involved, and is no longer forced to continually replace the tool in use, thus slowing down operations.

Lampo terminal adapter cone and American thread

Lampo joint and Italian thread

Pole

JACK ANGLED + TTS WINDOW SQUEEGEE

The **inclination of the joint** is added to the **30° angle of the squeegees** allowing with the **15° clicks** to **easily reach the windows to be cleaned**, thus facilitating operations and getting around any .

+ PRACTICAL

+ ERGONOMIC

+ **PRACTICAL**

Effortless opening of the blocking plate

30% easier than traditional window squeegees*

+30%

Glass —Line—

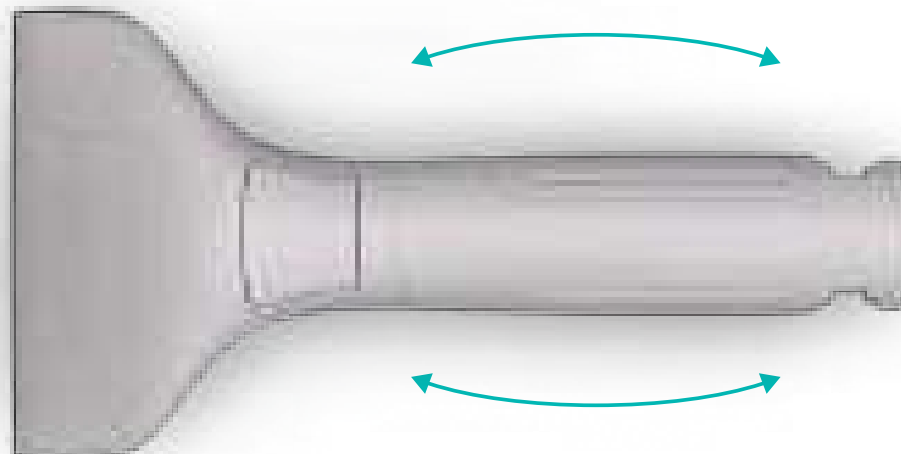

+ **ERGONOMIC**

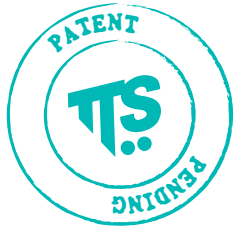

User-friendly handle

More than twice as long as traditional tools

Wide and curved to prevent fatigue

Glass — Line —

+ **EFFICIENT**

*Patented locking lever**

4 different combinations to optimise operation

①

CLOSED LEVER
and no pressure

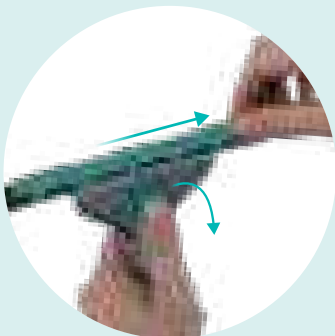

The plate remains closed, **blocking guide and blade** during cleaning operations

②

OPEN LEVER
and no pressure

The plate remains closed, **still holding the blade** and preventing accidental release

③

IMMEDIATE AND EFFORTLESS BLADE REPLACEMENT

A slight pressure on the lever is enough to **release the blade and replace it with greater speed and comfort** than traditional window squeegees

④

OPEN LEVER
under pressure

Allows the blocking plate to be opened for **easy removal or insertion of the guide with blade**

* Patent pending

Glass —Line—

Solaris window squeegee

*Ideal for **glass cleaning using the Swivel method** thanks to the swivel and user-friendly design*

It will be your ace in the hole because...

- Head **swivels up to 75° on each side** and can be locked at any angle
- The butterfly screw allows the **orientation to be adjusted without the need for tools**
- the Block system allows you to **quickly lock the central orientation** of the head
- Lightweight and easy to handle, the **bi-component handle ensures a firm grip**

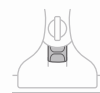

articulated head

lightweight handle, only 124 g

Block system for quick set-up

screw with butterfly for manual adjustment

FOCUS ON

Solaris is designed to offer maximum versatility: **the operator can choose whether to leave the head free to move or to lock it at a certain angle** as required.

Glass
—Line—

Glass —Line—

Geminus window squeegee and washer support

*One tool for two different operations,
ideal for quick cleaning at height*

You will form an inseparable team because...

- Simply turn the tool to **wash or dry the surface, saving time**
- Ensures **complete dirt removal** and **residue-free drying**
- **Reduces the number of tools and poles required**, maximising efficiency
- It is made of high-quality materials, selected to ensure **maximum resistance**

double use

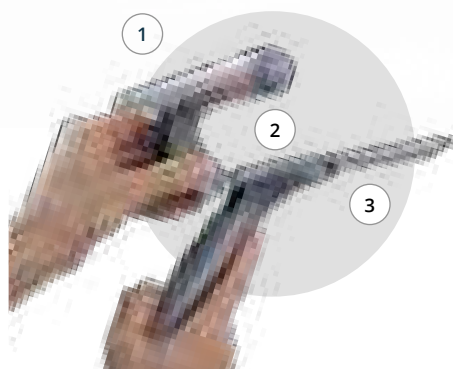

light and robust plastic

strong aluminium

stainless steel

Geminus ensures **maximum efficiency** from a logistical point of view as well thanks to its modular design and **easy-to-assemble components**.

Glass Line

Elios window squeegee

*Ideal to **ease and simplify**
glass **drying operations***

It is a convenient solution because...

- **It is designed following the principles of ergonomics** and made with lightweight materials in order to be easy-to-use
- **It is made of lightweight materials** to prevent fatigue
- **Minimises operator's efforts** while greatly increasing productivity
- **It stands out for cost-effectiveness**, without compromising on comfort and performance

high-quality

design

FOCUS ON

Performing, ergonomic and at the same time more cost-effective: the Elios window squeegee is a convenient solution specifically designed to offer advantages on several fronts.

Glass
—Line—

Glass —Line—

Supernova and Nova window squeegees

*Ideal for **complete surface drying**
after washing, removing any residue*

You will fall in love with it because...

- Made of stainless steel, a rustproof material that **is highly long-lasting**
- Closed-cell rubber coating **prevents dirt and bacteria from collecting**
- The non-slip grip ensures **a firm, stable and comfortable holding**
- The **professional design** of Nova and the **eye-catching style** of Supernova are not to be missed

stainles
steel

closed-cell
rubber

non-slip
grip

soft-touch
version

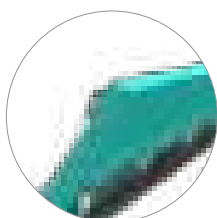

FOCUS ON

Each component has been designed down to the smallest detail to **optimise performance and maximise ease of use**, facilitating glass drying operations.

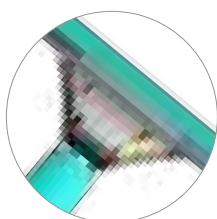

Design bits

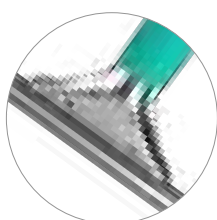

The higher position of the spring **makes the opening easier, more convenient and more immediate**

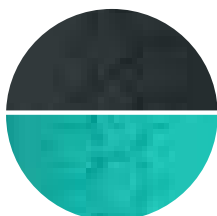

The opening system allows the operator to **insert the channel and blade to be inserted directly into the head** with no need to slide them in

The side closing of the spring **prevents the operator from being constantly exposed to a potential danger** of fingers being pinched during operations

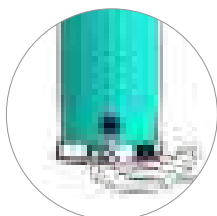

The head is designed to ensure **equal pressure on the blade**, whatever its length

A. The **shaping** of the rubber coating and the **honeycomb weave** ensure a firm grip during use, even with wet gloves

B. The **non-slip soft-touch grip of Supernova** makes the grip even more comfortable and safer in all conditions

The rear hole allows the squeegee **to be tied down with a safety cable** to perform the operations at height **hang it up later when work is completed**

Glass —Line—

Astro window washer support

Ideal for **professional washing of interior and exterior glass**
in combination with window washer sleeves

You can't do without it anymore because...

- **Lightweight and easy to handle**, it offers maximum ease of use while minimising effort
- The grip shaping is designed to **ensure maximum ergonomics and comfort**
- The diameter promotes **comfortable use** by reducing hand fatigue
- The support is equipped with special storage cells that **increase the surface washing capacity**

many storage
cells

Ergonomic
handle

made entirely
of plastic

only 88 g in the more
compact 25 cm version

The support features several cavities that act as small **tanks with cleaning solutions for continuous release** and the shaped and user-friendly handgrip.

Glass
—Line—

Glass —Line—

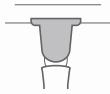

Astro aluminium window washer support

*Ideal for glass washing, it is available in a
fixed or jointed version to meet every need*

It will be love at first sight because...

- Aluminium manufacture gives **maximum lightness**
- Complete adhesion to the surface ensures **impeccable cleaning**
- **High stress resistance** prevents any deformation
- The **articulated version** facilitates cleaning in combination with the telescopic pole

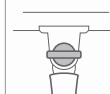

fixed
head

only 130 g in the
more compact
25 cm version

head swivels up to

adjustment

2- or 3-piece
versions

FOCUS ON

Lyra poles are the result of careful research and development work that has **simplified and speeded up adjustment**, optimising operation and maximising productivity.

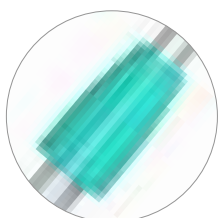

Design bits

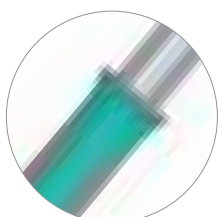

The **anti-rotation mechanism** allows you to set the desired length with just one hand, making **adjustment quick, stable and precise**

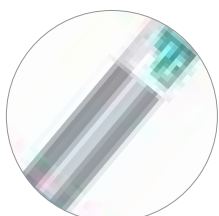

The **internal modules** are designed with **end stops** to facilitate the sliding of the segments, allowing for **smoother and more controlled extension** at every stage of the work

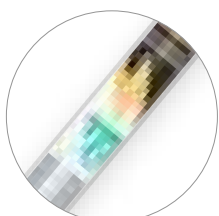

The **moulded plastic rings**, raised, offer a **comfortable grip** during fastening and, thanks to the **quick-lock system significantly reduce adjustment times***

The **soft-touch knob** with non-slip surface ensures a **secure grip**, the **collar prevents** the hand from **slipping**, while the optimised diameter helps **reduce operator effort**

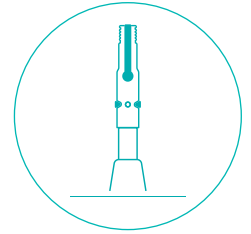

The **aluminium profiles** have a texture designed to be **easy to clean**, helping to keep the **pole hygienically suitable and pleasant to use** over time*

The **safety label** clearly indicates the risk of electric shock and shows the EAN code, ensuring product **safety and traceability***

* Available for all TTS poles

Lyra Essential poles

The **quality** that has always characterised TTS poles, combined with a **renewed and highly functional design**: Lyra Essential poles in aluminium are a valuable ally, allowing the operator to **easily and safely reach the highest surfaces**, while benefiting from an **optimised ring nut fixing to make it even faster**.

Lyra and **Lyra Essential** are supplied complete with **Jack Lampo** and **adapter for conical tools** making them the **only universal poles**, equipped with Lampo, cone, Italian and American thread connections.

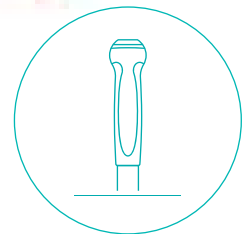

1-piece version

2-piece version

3-piece version

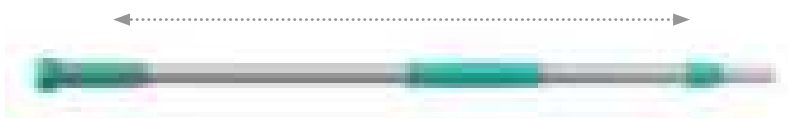

Telescopic handles

Available in the standard version **extendable from 102 to 184 cm** and in the compact version **extendable from 56 to 93 cm**, they allow for **quick length adjustment**. They also feature an **ergonomic non-slip handle** designed to promote **optimal grip**, reducing operator effort and preventing hand pain.

Standard version

Adjustable from 102 to 184 cm

Mini version

Adjustable from 56 to 93 cm

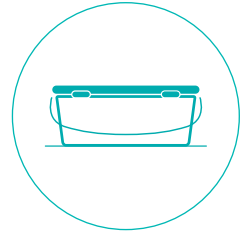

Jack Lampo Ø 23 not included (cod. 00008546)

Hook them up in an instant to the **tools of the Glass Line** for easy and safe access to the most inaccessible surfaces

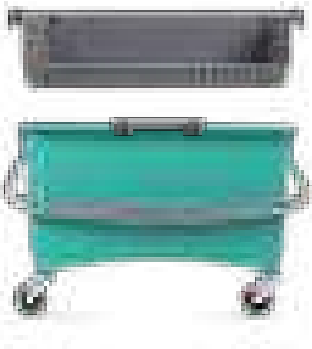

Glass
