

Rosin Resin for Thermoplastic Road Marking Paint

High bio-based rosin resins with light color and low odor. They support fast-drying road paints with good adhesion, impact resistance, and reliable resistance to heat, weathering, yellowing, and staining.

Product Type	Softening Point (R&B), °C	Acid Value mg/g	Melt Viscosity (150°C), cp	Color, Gardner
RM101	100~106	≤25	1000~3000	≤4
RM102	100~105	≤15	1000~3000	≤5
RM1060	104~108	≤15	1500~3500	≤4
RM1060F	104~112	≤40	2000~6000	≤7
RM1080	103~110	30-45	/	≤5
