BEL's 4" Pressure Vessels – new developments

We are excited to announce the latest advancements in our 4" vessel series at BEL, featuring ultra-high-pressure solutions.

Ultra-High-Pressure Solutions:

The End-Port model is now available for ultra-high-pressure applications with the introduction of our new **BEL4-E-1500psi** and **BEL4-E-1,800psi** models, designed to support configurations ranging from 1 to 6 membranes.

Additionally, our Side-Port model can operate at pressures up to **1,500 psi** (model BEL4-S-1500 psi).

Large Side Port Solutions:

We are pleased to announce the availability of a large 1.5" side port in our BEL 4" Side-Port low-pressure vessels, designed for **300psi to 1,200psi** applications. The new models, can accommodate up to 2 ports on each side for feed and concentrate (Multiple Port model).

These developments reflect our commitment to providing innovative solutions that meet the evolving needs of our clients.

Drawings, Order Forms and Technical Manuals are available in www.belvessels.com
