

# What We Do?

"We provide high-quality solutions for all technical challenges."

# How We Do?

- Years of Experience
- Qualified Colleagues
- New Ideas
- Believe and Trust
- Strong Network
- Machinery and Technology
- Worldclass Workmanship
- Aiming For the Best

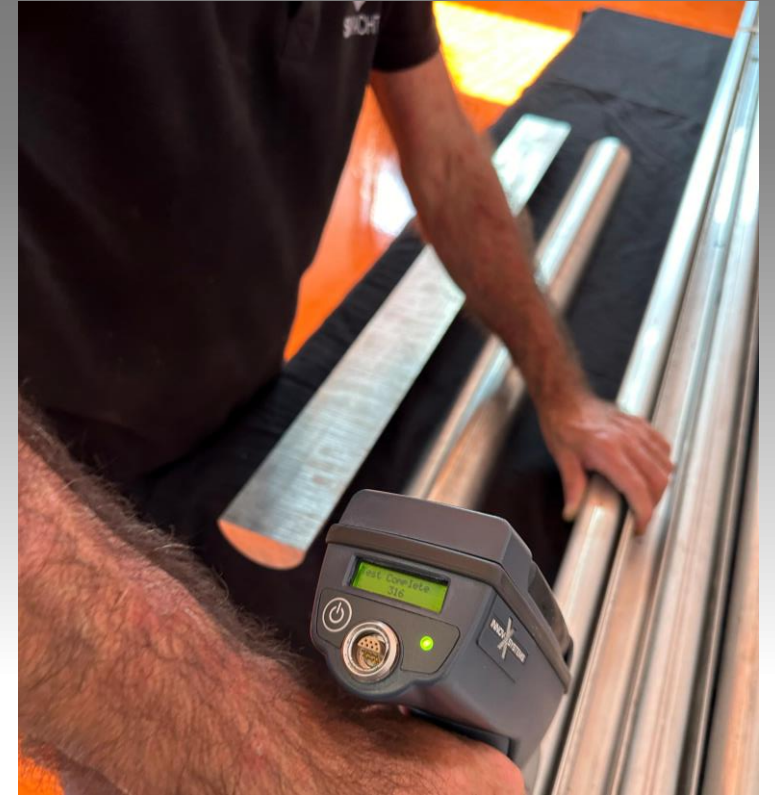

---

# Our Services

- 
1. 3D Measuring on Board
  2. Engineering and Design
  3. Raw Material Check with Spectrometry
  4. CAM Programming and CNC Milling
  5. Metal Forming
  6. Welding (TIG-MAG-Laser)
  7. Grinding
  8. Final Product Check with 3D Scanner
  9. High Quality Polishing
  10. Quality Assurance

# Raw Material Check with Spectrometry

"Quality ensurance from beginning "

3D Scanning where you need to go

# CNC Machining

"With a capacity of 1000x600mm"

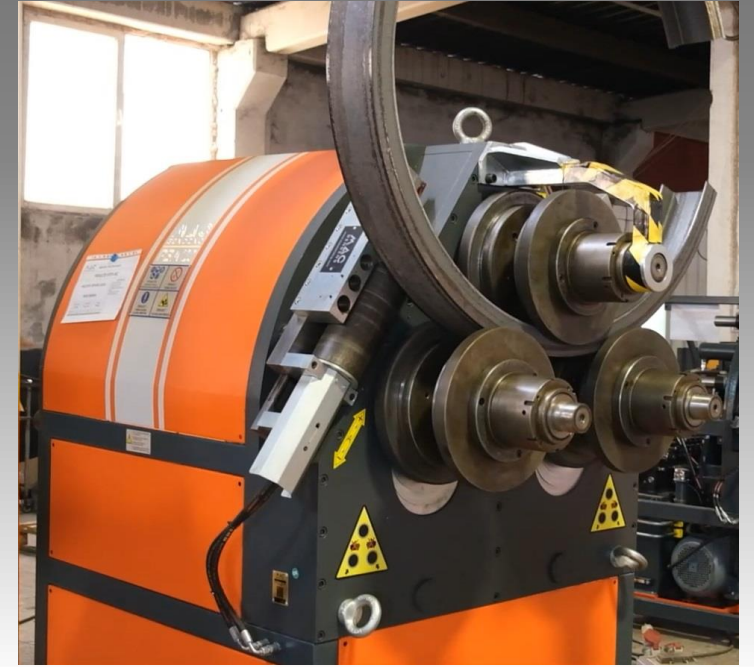

# Fiber Laser Welding

"Welding capacity up to 8mm thickness"

## 3-Roller Profile Bending Machine

"Oval tubes, round tubes, profiles"
