WARRANTY

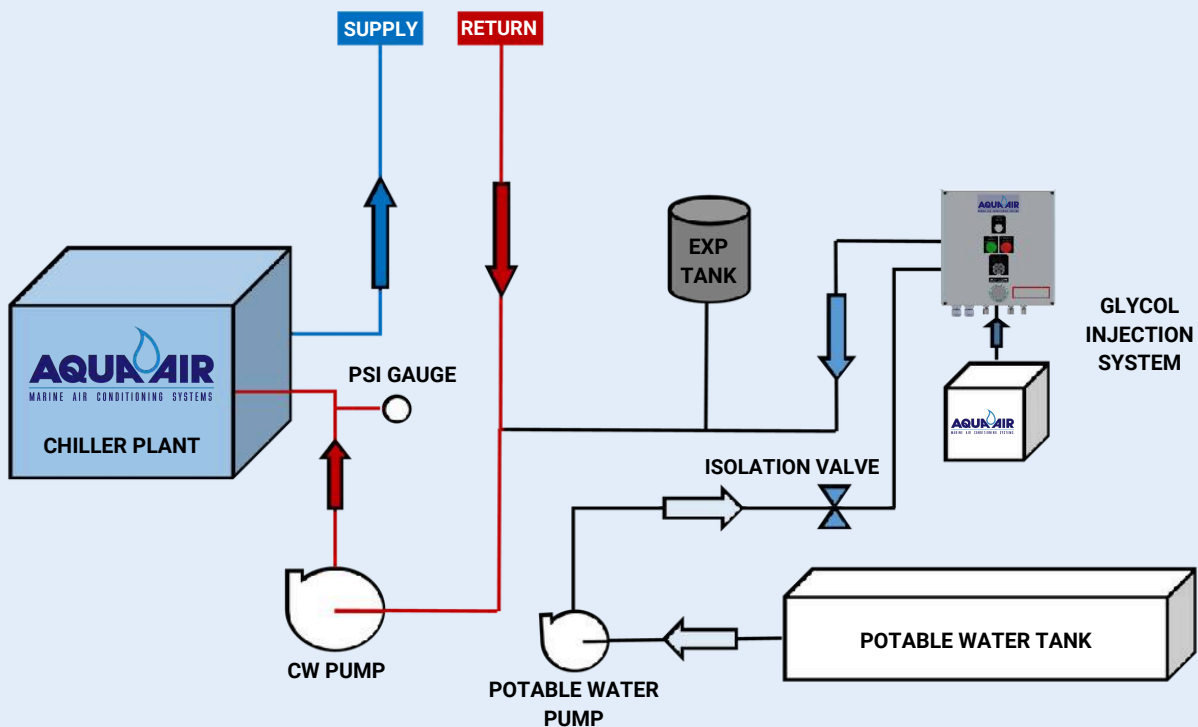

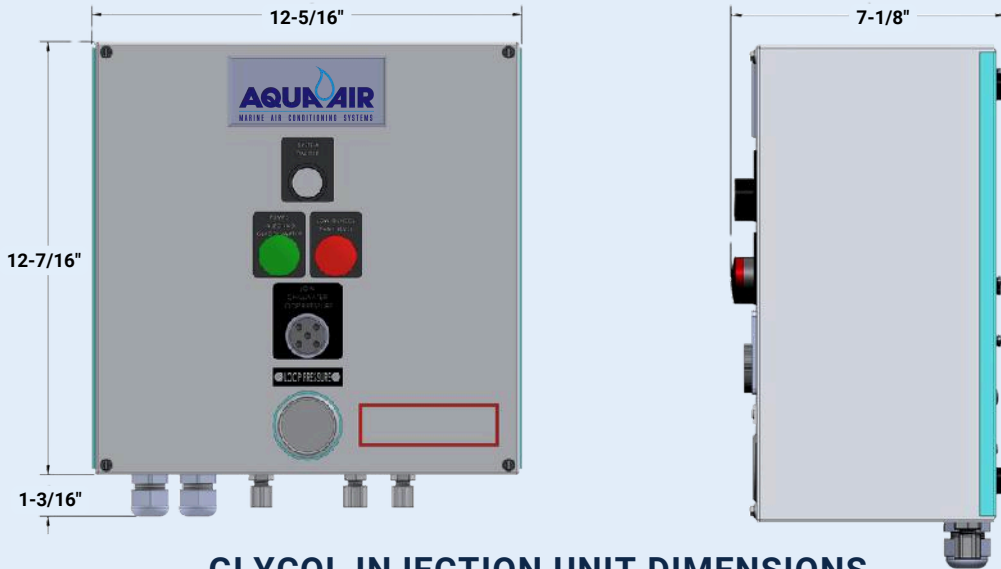

PRODUCT HIGHLIGHTS

- Automatic chilled water freeze protection
- Integrates into any existing chiller system
- Produces up to 27 gallons of glycol/water mixture per day at the proper concentration
- Sensor detects loss of pressure and alerts with audible warning of a leak
- Available in 115-1-60, 230-1-60, & 220-1-50
- Remote monitoring of the chiller loop system
- Eliminates manual system monitoring
- Continuously maintains a 20% glycol concentration in the system loop
- Glycol storage tank (5 gal) can be installed near the glycol injection unit or remotely
- Backed by our 7-Year Limited Warranty
