CONNECTED PLATFORM FOR MOBILITY OEMS

Vehicles have stories to tell. We turn them into business.

The white-label platform that connects every vehicle you build with your owners, dealers and service partners. We build and run it. You put your name on it and build what makes you different on top.

🏆 **Winner – Open Innovation Award 2026 "Scaling of the Year", with Bosch Mobility**

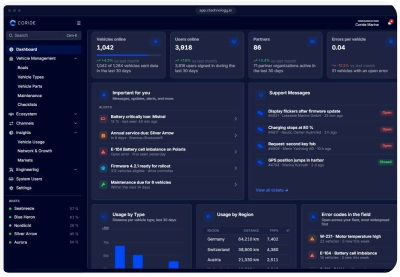

9+	50k+	3.5k+	60+	3 months

TRUSTED BY

A selection of our OEM customers and partners

WHAT WE DELIVER

One platform. Every stakeholder. Three products on one vehicle record.

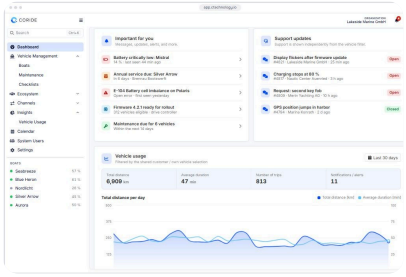

OEM Suite

FOR YOUR TEAM · WEB APP

- Digital twin and live status per vehicle
- Error codes and predictive maintenance rules
- Firmware and OTA rollouts
- Onboard dealers, partners and users

● **In production** for 9 OEMs in 60+ countries

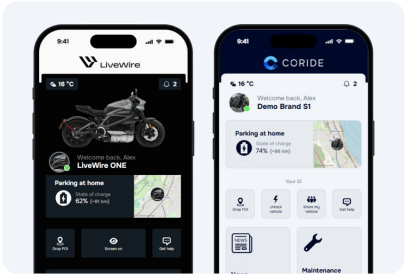

Partner Hub

FOR YOUR NETWORK · WEB APP

- Fault codes before the vehicle arrives
- Maintenance on actual usage, not the calendar
- Tickets, service booking and history
- One login for every brand they sell

● **3.5k+ dealers** already on the network

Driver app

FOR YOUR OWNERS · IOS & ANDROID

- Status, trips, alerts and theft protection
- Service booking and in-app support
- Add-ons and share-my-vehicle for family
- Your brand, your store account

● **50k+ vehicles** connected in the field

BUILT FOR EVERY VEHICLE TYPE

Two-wheelers & e-bikes · Boats & outboards · Commercial vehicles · Farm & off-highway · Caravans & campers · Three-wheelers

FITS YOUR VEHICLES AS THEY ARE

- ✓ **Hardware-agnostic** – your IoT devices, a supplier cloud or a phone as gateway
- ✓ **Live in 3 months** – first vehicles report in under a month
- ✓ **Swiss software, EU-hosted** – GDPR and EU Data Act built in

Works with **Bosch C-Hub** · **Comodule** · **Astra** · **Teltonika** · your own TCU

WHY OEMS CHOOSE C.TECHNOLOGY

We run the foundation. You build what makes you different.

Live in 3 months
App, partner portal and your OEM view from signed contract.

Nothing to run
No upfront cost, no servers, no platform team to hire.

Under your brand
Your app, your portal, your store listing. We stay in the background.

Your data stays yours
Open APIs for everything the platform holds. No lock-in.

Stronger aftersales
Dealers see the fault before the vehicle arrives.

Recurring revenue
Add-ons for owners, data access for partners, at your prices.

Compliance built in
EU hosting, GDPR and the EU Data Act handled by the platform.

Up to 80%
lower development cost vs. building in-house

> **"Partnering with c.technology represents a significant step towards a more connected future for boating."**
>
> Fabian Bez · CEO, Torqeedo

> **"EV riders expect the best digital experience to go with their electric motorcycles."**
>
> Dylan O'Mahony · Director of Digital Product, LiveWire

RECURRING REVENUE ARCHITECTURE

Every connected vehicle becomes a revenue line. Not just at sale – across its whole life.

PAID BY OWNERS
Subscriptions
Tiered connectivity and feature packages, monthly or yearly.

PAID BY OWNERS
In-app upsells
Premium features, extended warranties and accessories at the point of use.

PAID BY DEALERS
Dealer tools
Pro service tooling across your retail network, with a revenue share back to you.

PAID BY PARTNERS
Ecosystem add-ons
Insurance, charging, fleet and financing partners on owner-granted data.

Billing and payouts through c.technology as merchant of record, or you bill directly. Prices and revenue shares are yours to set.

EU DATA ACT & REGULATION

Data Act ready. Privacy by design.

- ✓ User data access in your own app
- ✓ Third-party access, granted per vehicle
- ✓ Machine-readable via REST & streaming APIs
- ✓ Revocation that takes effect at once
- ✓ B2B compensation at your prices
- ✓ Derived data and models stay yours

Mandatory for new connected vehicles in the EU since 12 September 2026. Plus support for UNECE R155/R156, Cyber Resilience Act and NIS2 – hosted in Frankfurt.

GETTING STARTED

From first vehicle to go-live

1. **Explore** WEEK 1
   Walk through the live demo environment with your team.
2. **Connect** < 1 MONTH
   First vehicles report – existing TCUs or via Bosch C-Hub.
3. **Configure** MONTH 2
   Choose Out of the box or Enterprise and agree the scope.
4. **Go live** MONTH 3
   Launch to dealers and owners under your brand.

See it in action.

Explore the OEM Suite, Partner Hub and driver app yourself, or book a 30-minute call on your integration path and a scoped pilot.
