shaping the glass of tomorrow

Tradition and innovation glass since 1974

Inglas Vetri, based in Santa Maria a Monte in Pisa, is your trusted glassworks for high-quality works such as fittings and designer partitions. With our 50th years of experience and the professionalism of our master glassmakers, we provide **custom-made solutions** for

every need ensuring products that combine aesthetics and functionality. We specialise in **crafting curved glass** for various sectors, from **food to marine, through building and commercial space furnishings**.

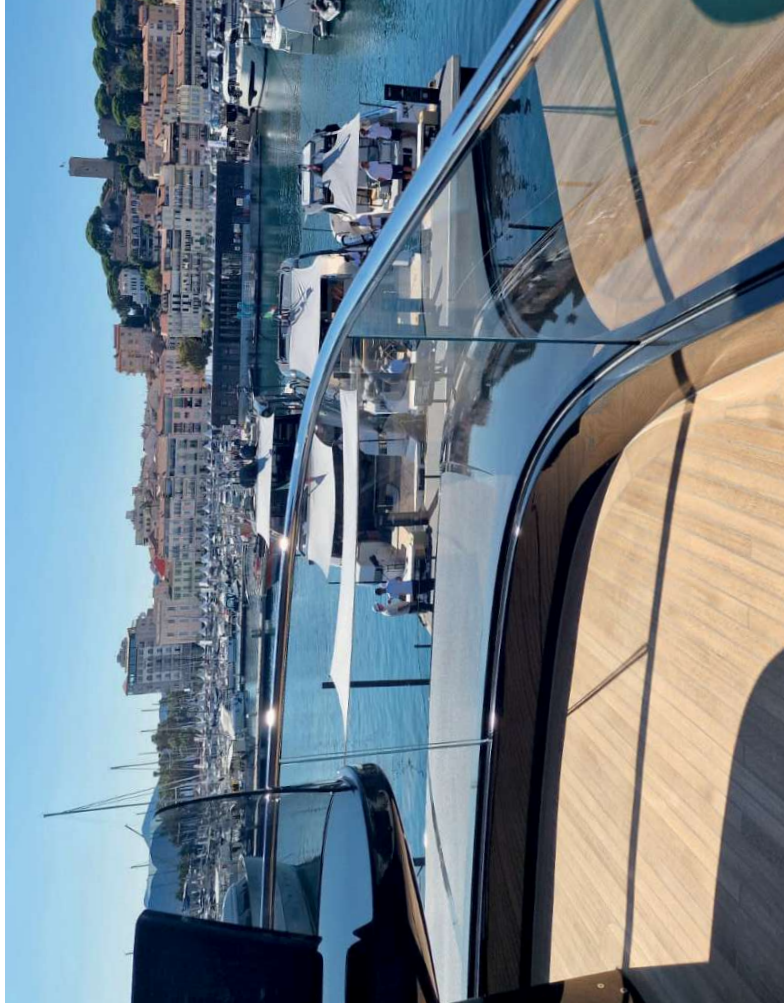

curved glass

Glass for yacht

We can produce high-performance glass work for the nautical industry with a design that covers all the details, suited for every type of on board applications: from windshields to portholes, side windows and the glass doors that separate the interior cabins and the bridge.

Our glass are produced in **layered safety glass** combined with tempering as needed, which can be chemical for curved glass or thermal for flat glass.

The layering is performed using PVB plastic or Sentry Glass.
