

Effortless installation and precise panel adjustability on Plywood.

NEW SLX-40T Marine clip system.

Introducing the New SLX-F40T Clip

Engineered for precision and performance, this new clip is just 12mm deep and allows 6mm of panel adjustability for easier, more forgiving installation. Two stages of engagement allows controlled panel positioning, ideal for complex works.

Made from engineering plastic it delivers strength, precision, and safety. Available in 5Kg, 10kg, 18Kg and 25kg Pullout load. Fire-rated option available.
