

Solutions to swear by, not at.

RAILBLAZA

We don't just make gear—we make the gear we wish existed. From New Zealand roots to Houston grit, every piece is built to take a beating and come back swinging. Rod holders that clamp like a vice, mounts tougher than your uncle's third truck. Gear that doesn't just show up. It overdelivers.

We're tinkerers. Tweak-til-it's-perfect types. The kind of people who look at a problem and think, Yeah, we can make that better. Because when you spend enough time on the water, in the woods, or just knee-deep in adventure, you learn real fast that good gear isn't a luxury—it's the difference between a legendary day and a long list of regrets.

PRODUCT OVERVIEW

StarPort mounts aren't just connectors—they're the backbone of your setup. **RAILBLAZA** mounts lock in your gear like a vice and won't flinch when the elements come swinging. One base, endless possibilities—rod holders, cameras, lights, you name it. **StarPort** keeps it solid, so you can focus on the fight, not the hardware.

Arguably the world's most popular rod holders

Hold your fishfinder steady—no matter the chop

Transducer Mounts
No drift. No doubt. Just clarity
