THE COMPANY

Ado is a Spanish company with more than 44 years of experience, specialized in the manufacture and installation of urban furniture, fences, iron or stainless steel locks, road signs, industrial protection, automation, automatic bollards, doors, canopies, glass, aluminum

Ado SA was founded in 1975 in the field of locksmithing. Currently, it is one of the companies in the sector with the greatest variety of products in Urban Furniture, Road Signs, automation, aluminum, locksmith ... Thus, it is one of the companies that offers a greater variety of products and services to the customer on the market.

Our introduction in the manufacture of Urban Furniture is given by the growing demand on the part of our clients (municipalities, construction companies, designers, etc.) who request urban furniture differentiated from the one currently on the market and from Eastern markets for another of higher quality and innovative designs.

Now being one of the leading manufacturers of custom and design urban furniture.

CONTACT US

Our company philosophy is to provide our customers with better products and services daily to ensure quick response and service. For these reasons we take into account the opinion of our customers, since they help us to offer better products.

We collaborate with architecture, engineering, technical services, administrations offices to which we provide specific solutions on the products they need. Thus manufacturing new products that meet the expectations of our customers. Making sure to offer products of great reliability and longevity.

In this way, we improve, modify or manufacture special products tailored to the needs and expectations of our customers.
Our priority in each of the markets is the customer.

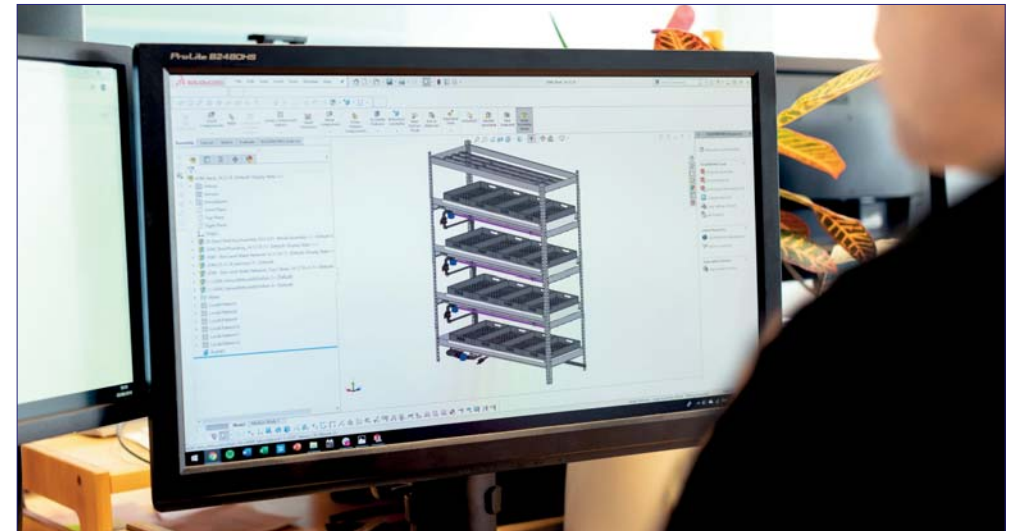

DESIGN

As designers of our own products we place emphasis on design, quality and durability as well as on production costs and delivery dates, obtaining products with a high quality design at affordable prices.

As a manufacturer of street furniture we are constantly creating new designs. Our experience and knowledge of raw materials is an added value to the products we design and manufacture.

This is a small sample of all the innovations and improvements made to our cities' street furniture to date.

Our young and dynamic company structure allows us to take an idea and turn it into a quality and design product at an affordable price and manufactured nationally.

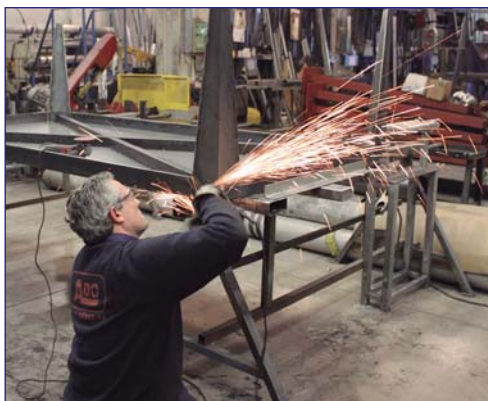

We manufacture all types of street furniture tailored to customers around the world who require customized products with special designs or standardized models that are more common in their country of origin.

MANUFACTURE

Our goal as manufacturers is to offer a final product of excellent quality and price that can compete with the entry of low-quality products.

The manufacturing is made with raw materials of our country and the European community, ensuring the highest quality standards.

Our own production lets us offer a great variety of standard products that can adjust to the needs of our customers, or rather create that unique product you desire and that will give you those unique features.

We control the production process from start to finish, from design to manufacturing and the subsequent sale.

The improvement of quality, as well as an exhaustive control of our products and our production processes together with our quality standards, cost control and reduction in the execution and delivery time of the products, position us as a reference supplier.

MACHINERY

We have a wide range of machinery for our production.

- Folders.
- Welding machines.
- Presses
- Cutting machines.
- Plasma machines.

INTERNACIONALIZATION
