

Radar liquid level sensor DULCOLEVEL

simple operation – versatile control.

DULCOLEVEL is simple to operate via the mobile app.
Liquid level and all the required data available at any time via Bluetooth.

A ProMinent tank is the ideal place to site a radar liquid level sensor.

Measurement of any tank up to a height of 15 m, with an accuracy of ± 5 mm

High level of operating safety.
Contact-free measurements and sensor configuration – no contact with hazardous media.

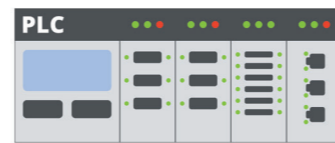

Easy and inexpensive to retrofit and configure
Intuitive commissioning with the DULCONNEX Blue App.

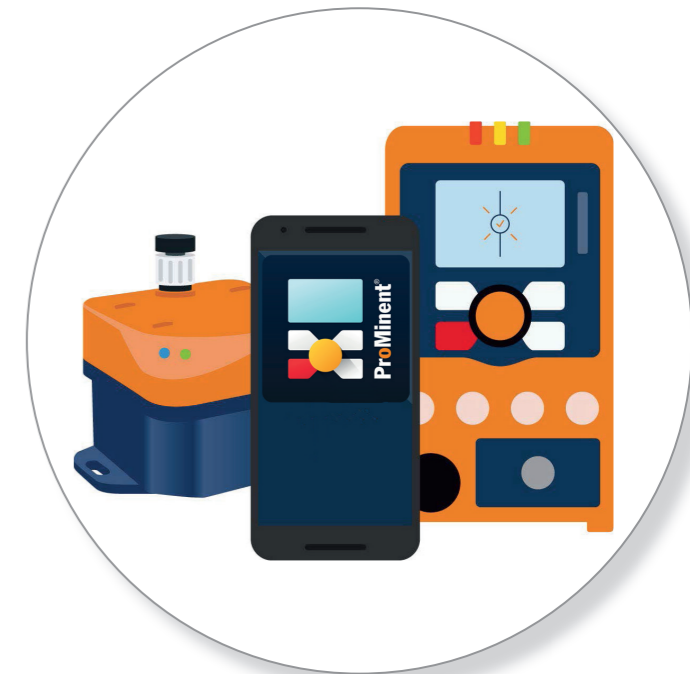

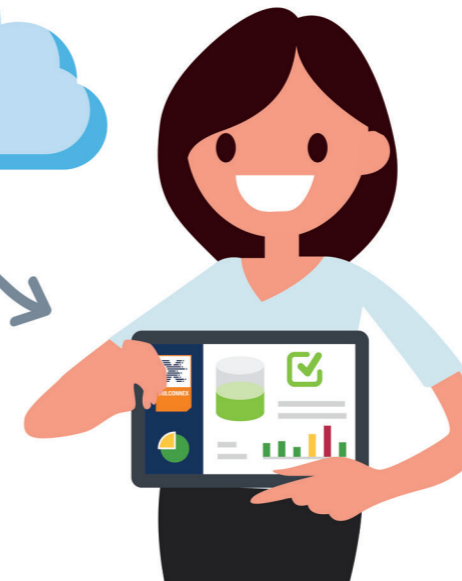

DULCOLEVEL supplies measurement data to the cloud or higher-level process control system.
Compatible with our web interface DULCONNEX.

Improved transparency.
Pump and tank values can be accessed from anywhere in the world via the DULCONNEX Cloud.

Communicates with a process control system
via all standard interfaces by means of a 0/4 - 20 mA interface or fieldbus.

DULCOLEVEL, pump and app
work together perfectly to simplify how you manage chemicals.
