

# MATT CHEM® MARINE

**WE TAKE CARE  
OF YOUR BOAT**

**MADE  
in FRANCE**

**[www.mattchem.fr](http://www.mattchem.fr)**

**MATT CHEM®** is a family-run business founded in 1983.

**MATT CHEM®** specialises in the creation and design of eco-friendly cleaning and renovation products.

Originally active in industrial maintenance, our company diversified and, in 1998, developed the **MATT CHEM® MARINE** range for the recreational boating sector and, in 2016, the **MATT CHEM® LOISIRS** range for motorhomes.

**MATT CHEM®** is the only French company offering French-made products that are eco-friendly, organic, enzymatic and highly effective.

**MATT CHEM® MARINE** is an essential range in the boating market.

**MATT CHEM® MARINE** is the leader in the field of teak maintenance and renovation. It boasts more than 200 products that fulfill expectations of pleasure-boat owners with regards to result.

Protecting the environment is our firm's major preoccupation and this ambition is illustrated perfectly by our motto : **A clean sea for future generations®**

## Cleaners for hull and deck Renovators for gelcoat and paint

## Teak cleaner and brightener Teak oil and teak sealer

## Cleaners for plastic and fabric Renovators for sailcloth

## Stainless steel rust remover Polish for metals

## Cleaners for engine and bilge Fuel treatments

## Treatments for holding tanks, gray water tanks and water tank

# OUR VALUES

## BIODEGRADABILITY

**MATT CHEM®** has made the choice to prioritize turning towards surfactants of a vegetative origin.

We create **detergents from selected ingredients of an easily renewable origin**. Their natural origin and their biodegradability assure them a better compatibility with the marine environment.

## ENZYMATIC FORMULATIONS

**MATT CHEM®** strives to include in formulations enzyme combinations that facilitate the cleaning and degradability of waste.

We are increasingly adding into our formulations these specific microorganisms (**enzymes and bacteria**) that will naturally degrade and digest organic matter, fats, limestone, and tartar.

## CUSTOMERS SATISFACTION

**MATT CHEM®**'s objective is to offer a high level of service that is beyond reproach, by answering customers' request and resolving any issues as quickly as possible and constantly striving to improve the client experience.

## INNOVATION

**MATT CHEM®** is constantly improving its productivity and is committed to promoting sustainability. The benefits of an eco-friendly range include: **respect for the environment, respect for the user and a reduction in waste.**
